Phytotherapy

Harnessing plant biochemical and energetic actions

Many plants synthesize phyto-chemicals with recognized health benefits including: alkaloids, terpenoids and polyphenols. These phyto-chemicals vary from plant to plant as each has its own taxonomically distinct combination of naturally bioactive components. Each component exerts its specific benefit through the action of these compounds on one or more naturally occurring phytonutrient biochemical pathways.

The biochemical effects of plant therapy also evoke phytotherapeutic energetic principles – the belief that plants and plant remedies hold a vital energetic force. Much of the power of phytotherapy is therefore in the remedy’s ability to harness and carry not only the biochemical benefits but the energetic aspect as well.

The biochemical and energetic make-up is affected by many factors including: plant age at harvest, methods of harvest, plant components utilized, storage, the extraction method, and the concentration of the active ingredients in the final product.

Gemmotherapies, phytotherapies and phytoembryotherapies are traditional medicines. Traditional medicine represents the sum total of knowledge, skills and practices based on the theories, beliefs and experiences indigenous to different cultures, used in the maintenance of health, as well as in the prevention, diagnosis, improvement or treatment of physical and mental illness. This definition is based on the one used by the World Health Organization Traditional Medicine Program.

The aim of this comprehensive product reference guide is for practitioner use only and to assist in building more effective and successful patient treatment strategies. The reference guide is to be used as an adjunct to Seroyal Continuing Education and is not intended to be utilized as a diagnostic tool nor replace any other required education. The remedies indicated in this reference guide are potent medicines that can have profound therapeutic effects on patients. As with any intervention, the dosage may need to be adjusted for those with chronic conditions, very sensitive individuals and those taking multiple medications. Practitioners are solely responsible for the care and treatment provided to their own patients. The information provided by the speaker or speakers in the Seroyal Continuing Education program together with any written material provided do not necessarily represent the views of Seroyal and are not intended as medical advice or an endorsement of any products. This information is for professional use only and is not meant to diagnose, treat, cure, prevent any disease or replace traditional treatment, and has not been evaluated by the FDA or Health Canada. Phytoembryotherapy

Capturing the power of the meristem and growth cycle

Phytoembryotherapy is a branch of phytotherapy that specifically incorporates plant embryological tissues (buds and young shoots) containing “plant meristem” cells – undifferentiated, fast dividing cells which contain the plant’s genetic blueprint and material (see Figure 1). These embryonic tissues are rich in beneficial phyto-chemicals including: growth factors and plant hormones (see Figure 2), enzymes, nucleic acids, oligo-elements, and phytonutrients such as polyphenols and flavonoids. These embryological tissues are also utilized because many of the above mentioned components are lost in fully developed plants once chlorophyll is formed.

These embryological tissues are also utilized because their energetic components are at their highest levels when they are harvested in the spring – the most active phase of the growth cycle.

Plant buds have been used medicinally dating as far back as the Egyptians. The revolution of phytoembryological tissue therapy began in the 1950s. Dr. Pol Henry, a renowned Belgian homeopath, who had become inspired by Johann Wolfgang von Goethe’s book “The Metamorphosis of Plants”, conducted research on the therapeutic properties of plant buds. In 1970, he published his clinical findings, naming this new therapy, “Phytoembryotherapie”.

He contributed much of the effectiveness of this form of plant therapy to the anabolic potential and energetic power of the plant meristems. Phytoembryotherapy was further adapted by French Homeopath, Dr. Max Tetau. He was instrumental in advancing the clinical application of embryonic plant therapy. Both during and since his time, other Belgian and French doctors, among other researchers, such as Claude Bergeret and the biologist Jean-Claude Leunis, have further contributed to the scientific and clinical development of this phytotherapy.

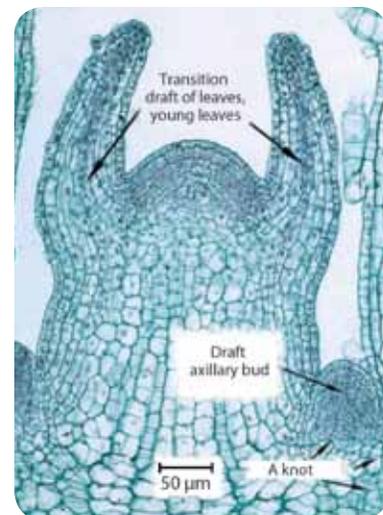

Figure 1

Phytoembryotherapy is a branch of phytotherapy that specifically incorporates plant embryological tissues containing “plant meristem” cells – undifferentiated, fast dividing cells which contain the plant’s genetic blueprint and material.

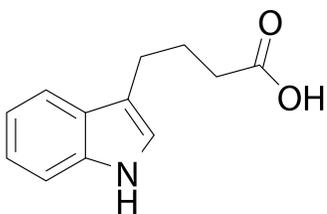

Figure 2

Phytoembryotherapy is rich in phyto-chemicals including the following plant hormones: Auxins, Gibberellins, Cytokinins and Abscissin.

Auxins

An essential growth hormone for plant development. It was discovered in 1926 by Went.

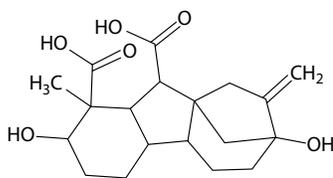

- Stimulates bud formation
- Stimulates embryogenesis
- Responsible of apical dominance
- Promotes growth of roots, stems and buds
- Acts on cell plasticity.

Gibberellins

There are currently more than 80 known gibberellins. The most common gibberellin molecule is GA452D (below).

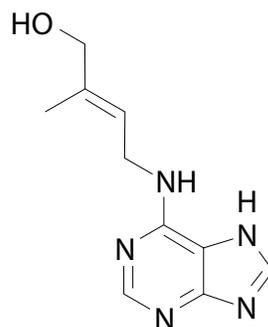

- Stimulates the synthesis of meristems
- Stimulates flower buds
- Promotes growth of young leaves
- Promotes the flowering of plants
- Acts on cell plasticity
- Disappears at the onset of chlorophyll

Cytokinins

Discovered in 1940.

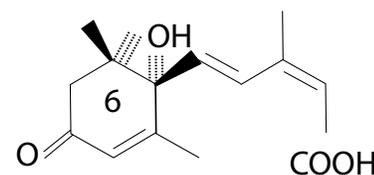

- Stimulates metabolism of young shoots cells
- Promotes the growth of young shoots
- Stimulates the opening of leaves
- Stimulates the production of chlorophyll
- Activates cell division

Abscissin

Abscisic acid or ABA is a plant hormone, discovered in 1963. Also called “dormin” because it is responsible of the winter dormancy of buds. This molecule is very unstable.

- Stops bud growth. Winter dormancy.
- Inhibition of seed germination
- Helps to fight against drought (adaptogen hormone).
- Stress hormone. In case of lack of water and nutrient
- Strengthens the defense of the plant

Phyto-gens

The evolution of phytoembryotherapy

GENESTRA BRANDS™ Phyto-gen therapy consists of potent plant remedies made from fresh buds and young shoots of growing plants. Phyto-gens modify biochemical actions and evoke phytotherapeutic energetic principles. Macerated in equal parts of water, natural glycerin and alcohol mediums, they are standardized to a 1:20 extract to ensure delivery of concentrated bioactive extracts to target organs. Each plant extract is organic Eco-Certified and allows for a high potency, low dose dispensing therapy, making Phyto-gens cost-effective and highly compliant for patient use.

Manufactured respecting nature

Phyto-gen manufacturing follows the original production process created by Dr. Pol Henry, the founder of phytoembryotherapy. Every stage respects the natural phytonutrients and the environment from which they come.

Harvest

- **Eco-Certified fresh buds and young shoots:** Certified organic buds and young shoots contain genetic material lost after plant matures.
- **Spring harvested by accredited growers:** Preserves plant integrity and captures highest energetic levels during the most active growth cycle.
- **Monitored growing regions:** Grown biodynamically or in wildcrafted preserves.
- **No pre-soaking:** Refrigerated with immediate transport to extraction site helps maintain biological structure and limit energetic loss. No crushing, grinding, freezing or liquid immersion before maceration (unlike competitors who immerse immediately in glycerin solution and thus unable to qualitatively standardize batches).

Figure 3

GENESTRA BRANDS™ Phyto-gen therapy, which incorporates only buds and young shoots, are macerated in equal amounts of water, alcohol and glycerin.

Proprietary maceration and extraction

- **Standardized extracts:** Secures homogenous properties of product in all manufactured batches.
- **20 day maceration:** Phytonutrients are macerated (soaked) in equal parts of water, alcohol and natural glycerin for 20 days (see Figure 3) providing the fullest range of nutrient and energy extraction.
- **Biochemical component extraction:** The various macerate components not only help to retain the polar and non-polar aspects, but are responsible for the extraction of specific biochemical components while respecting plant physiology:
 - **Water:** Water soluble derivatives, tannins, minerals, water-soluble flavonoids, water-soluble vitamins, some water-soluble acids. Dr. Pol Henry also attached great importance to the role of water in the maceration process, believing that it is the water fraction that carries the energetic benefits of the bud.
 - **Alcohol:** Alkaloids, glycosides, heterosides and some acids.
 - **Glycerin:** Essential oils, fat soluble flavonoids, fat soluble vitamins and some acids.
- **No mechanization:** During maceration phytonutrients are slowly agitated aseptically by hand (no machine). The macerates are filtered by gravity and extracted by very gentle pressure — avoiding extremely powerful presses that destroy both the physiology and energetic plant properties. After maceration, the buds and young shoots are returned to nature and used as fertilizer in organic farming (to complete the energetic life cycle).
- **100% natural:** The resulting concentrated macerates are 100% natural — they contain no chemical preservatives, are never irradiated and have never been heated or frozen.

Optimal quality: High tannin and flavonoid concentration

GENESTRA BRANDS™ Phyto-gens are a unique product line: 1:20 extract from young buds and shoots, macerated in equal parts of alcohol, water and natural glycerin. While there may be other phytotherapies available on the market, none quite match the purity, strength and effectiveness of GENESTRA BRANDS™ Phyto-gens.

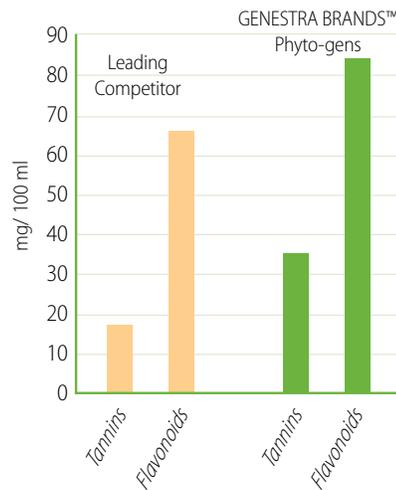

In a recent laboratory analysis versus a leading competitor, GENESTRA BRANDS™ Phyto-gens were found to have:

- Greater frequency of higher tannin concentrations as measured via the European Pharmacopoeia 6.0 standards (see Figure 4)
- Greater frequency of higher flavonoid concentrations as measured via spectrophotometry (see Figure 4)
- Tannin and flavonoid measurements appear to be more homogeneous

Figure 4

Two concentrated bud macerates were analyzed: Hawthorn (*Crataegus laevigata*) and Fig (*Ficus carica*). Both tannins & flavonoids were measured by an independent laboratory. Tannins were measured based on the European Pharmacopoeia 6.0. Flavonoids were measured based on spectrophotometry.

Comparison of the levels of tannins and flavonoids present in the macerated Hawthorn (*Crataegus laevigata*)

Comparison of the levels of tannins and flavonoids present in the macerated Fig tree (*Ficus carica*)

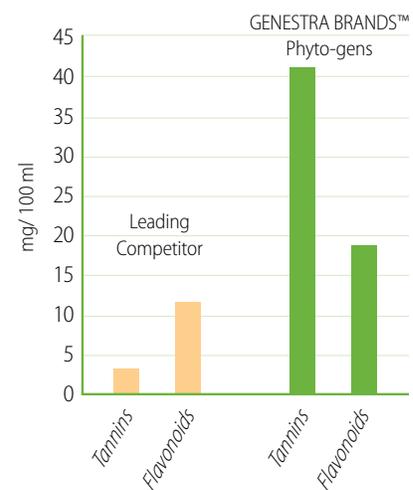

Figure 5

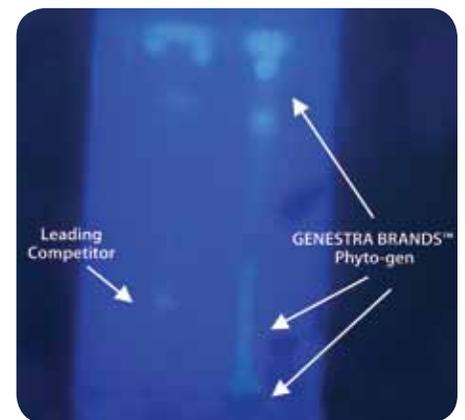

GENESTRA BRANDS™ Phyto-gens present themselves as a darker colour than competitors (see Figure 5), which may be due to a higher content of flavonoid-type molecules. Moreover, this line is less sweet and viscous, as perhaps it contains less glycerin than competitors.

Another laboratory analysis demonstrates that while chromatographic profiles were similar, GENESTRA BRANDS™ Phyto-gens appear to be more loaded – meaning a larger range of molecules was extracted in the macerates when compared to a leading competitor (see Figure 6). The density and the dry-matter content of the competitor product tend to be lower due to higher glycerin levels.

In a visual comparison of the same single remedy, GENESTRA BRANDS™ Phyto-gens appear to be more concentrated than the leading competitor.

Figure 6

The chromatographic profile on the right is a GENESTRA BRANDS™ Phyto-gen – and appears to have more active ingredients than the leading competitor.

GENESTRA BRANDS™

Phyto-gens

GENESTRA BRANDS™ Phyto-gen Therapy

GENESTRA BRANDS™ Phyto-gen therapy incorporates only buds and young shoots. It is macerated in equal amounts of water, alcohol and natural glycerin. This powerful, efficient and highly successful adjunctive therapy is considered one of the major disciplines of natural medicine to improve health in accordance with the laws of nature.

Extensive research and laboratory analysis, supported with years of European clinical practice, has helped to identify the different bud and young shoot properties and best genus of species to determine the most beneficial biochemical and energetic effect.

“To achieve an ideal equilibrium, physical and mental, the indicator of perfect health, Man, a reflection of the Universe, must live in harmony with the forces of nature he is immersed in and, above all, in this plant ocean, the forest is a special place where we commune with the very essence of life.”

Dr. Bergeret

Singles

- **Flexible protocols.** Formulated to 'build' health physically and constitutionally. They can also be used in combination with condition-specific remedies.

---	---	--

Symbiotic Combinations

- **Symbiotic macerate.** Made by the maceration of all the three phytonutrients together – not by association after isolated maceration. This synergy creates an effect that is greater than the sum of the individual components.
- **Condition-specific.** Symbiotic concept makes it easy to prescribe and increases patient compliance. Convenient to use and can be taken at any time of day.

Bilberry Young Shoot

Vaccinium myrtillus

Bilberry is a remarkable plant that grows in acidic and silicic soil. In the fall, violet-black coloured berries grow and are highly sought after by nocturnal birds to help stimulate their night vision.

Historically, Bilberry has been used for its astringing properties. These astringing properties have been used for intestinal tropisms, specifically vomiting, colitis, infectious diarrhoeas, and for reducing gastrointestinal fermentation and putrefaction.

Due to its endocrine balancing effects on the pancreas and liver, especially considering the rich concentration of vasculo-protective anthocyanosides and antioxidant properties, it is specifically beneficial to help with protecting the microvascular and ocular circulation.

Lastly, it has a strong exocrine anti-infectious action with antibiotic-like properties with vermifuge activity and urinary antiseptic actions against colibacillosis.

INDICATIONS

Antioxidant	Night Vision
Cataracts	Varicose Veins
Chronic Fatigue Syndrome	Vascular Protector
Colibacillosis	Venous Insufficiency
Degenerative Retinal Conditions	Visual Acuity
Dermatitis	Urinary Antiseptic
Gastro-intestinal Disorders	Urinary Tract Infections
Hemorrhoids	

Each Drop (0.028 ml) Contains:

Bilberry (*Vaccinium myrtillus*)
Young Shoot Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23952**

Black Alder Bud

Alnus glutinosa

Black Alder is a robust pioneering tree. It colonizes along the river's edge and protects surrounding trees from excess humidity with its radicular tuberosities that reach deep into turbulent soil to regenerate the terrain in which it grows.

The Black Alder bud is round and sticky, and mimics this signature of platelets in the treatment of acute venous platelet aggregation. It also has an affinity for the arterial capillaries and thus helps facilitate oxygenation.

This bud works well in the treatment of suppurative, inflammatory and subacute diffuse inflammatory conditions on the mucosal terrain. By this doctrine, Black Alder also helps with the resolution of painful hydrogenoid rheumatism.

INDICATIONS

Articular Rheumatism	Inflammatory Consequences
Cerebral Circulation	URTI
Cerebral Functions	

Each Drop (0.028 ml) Contains:

Black Alder (*Alnus glutinosa*) Bud Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23950**

Blackberry Young Shoot

Rubus fruticosus

Blackberry is a thorny plant that grows in uncultivable regions of France. It is used in respiratory fibrosis and is also a great osteoblastic stimulator. This mechanism of action transfers over to assist in bone remineralization and consolidation post fracture, and in cases of arthrosis and osteoporosis to fortify osseous tissues.

Blackberry also helps to facilitate the actions of other buds, especially in terms of assisting in pain reduction.

INDICATIONS

Chronic Bronchitis	Respiratory Conditions
Osteoporosis	Sclerotic Emphysema

Each Drop (0.028 ml) Contains:

Blackberry (*Rubus fruticosus*)
Young Shoot Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23954**

Black Currant Bud

Ribes nigrum

Black Currant originated in the Himalayas and the plains of Nepal. Its berries are rich in vitamin C and bioflavonoids. It is considered as a universal drainer capable of cleansing the entire system.

Black Currant has a direct adreno-cortico stimulating action to promote an increase in cortisone-like actions without the iatrogenic consequences. The increase in cortisol helps the immune system in warding and fighting off colds and flu, repeated childhood rhinopharyngitis and respiratory allergies.

Primarily, the adreno-stimulant actions have strong anti-inflammatory and anti-allergenic properties that act on the mucosal membranes of the respiratory, digestive and urinary tracts.

Black Currant also stimulates the catabolism of ureas, uric acids and cholesterol.

INDICATIONS

- | | |
|------------------------|------------------|
| Allergies | Gastritis |
| Ankylosing Spondylitis | Hayfever |
| Anti-Inflammatory | Migraines |
| Bronchitis | Quincke's Oedema |
| Chronic Head Colds | Rhinitis |
| Emphysema | Urticaria |

Each Drop (0.028 ml) Contains:

Black Currant (*Ribes nigrum*) Bud Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23953**

Boston Ivy Young Shoot

Ampelopsis veitchii

Boston Ivy is a remarkable gripping vine from the Vitaceae family. It grows by attaching its tendrils to hard surfaces, adhering and anchoring its offshoots in order to support its progressive growth. These natural adhering properties mirror the plants remarkable ability to correct connective tissue disorders for straightened growth.

Boston Ivy has an affinity for the articulating surfaces such as ligaments, tendons and the synovia. This is particularly beneficial in the treatment of inflammatory rheumatismal conditions with fibrous indurations.

INDICATIONS

- Cartilage Regeneration
- Chronic Rheumatism
- Dupuytren's Disease

Each Drop (0.028 ml) Contains:

Boston Ivy (*Ampelopsis veitchii*)
Young Shoot Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23975**

Corn Root Bark

Zea mays

In phytotherapy, the root bark of corn is used as the medicinal ingredient.

Corn is primarily indicated for its anti-inflammatory actions on urinary systems and kidney health.

Caution must be used when administering this phytotherapy as high doses of corn may induce fatigue.

INDICATIONS

- Kidney Health
- Urinary Tract Inflammation

Each Drop (0.028 ml) Contains:

Corn (*Zea mays*)
Root Bark Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23976**

Crab Apple Bud

Malus sylvestris

Crab Apple belongs to the Rosaceae family and is one of the oldest fruit trees in the world. It dates back to biblical times and is renowned as the symbol for the "Tree of Knowledge" and original sin. Interestingly, it is understood to have two primary spheres of action: the brain and sexual organs.

Crab Apple accelerates cerebral circulation and oxygenation and regulates the secretion of neuromodulators to help facilitate intellectual work and mental fatigue. On the sexual sphere, it stimulates testosterone secretion in men and estradiol secretion in women. This hormone modulation also aids in lowering cholesterol and triglyceride levels.

Due to its high vitamins B and C and minerals Si, Fe, S, Mn and Co, it has been used as an anti-inflammatory and diuretic.

Of additional benefit, Crab Apple has haematopoietic activity that is beneficial in treating blood stasis, hot flushes and for migraines of a vascular nature.

INDICATIONS

Calmant, Sleep Aid	Hypercholesterolemia
Cerebral Fatigue	Memory Loss
Difficulty Concentrating	Menopausal Hot Flashes
Diuretic	Menopausal Osteoporosis
Elevated Triglycerides	Migraines
High-density Lipoprotein (HDL)	Senescence in Andropausal Men

Each Drop (0.028 ml) Contains:

Crab Apple (*Malus sylvestris*) Bud Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23951**

Dog Rose Young Shoot

Rosa canina

Dog Rose belongs to the innumerable species of wild roses that grow almost everywhere in the forests of Europe, North Africa and Asia. These plants are rigorous and durable and they can adapt to grow on many rough terrains.

In Phytotherapy, Dog Rose helps treat local inflammations. Its primary action is on the sphere of the ear, nose and throat as an anti-inflammatory and regenerator of these upper respiratory tract mucous membranes.

Dog Rose works on a deficient, fatigued, anemic and demineralized terrain.

It has tremendous effects in fatigued children and convalescent adults by stimulating the defenses in viral etiologies with repeated rhinopharyngitis, as well as nasal and buccal herpes simplex outbreaks.

This gripping vine also has an anti-infectious action on the colon that helps protect and stimulate the defenses.

INDICATIONS

Allergies	Migraines and Headaches
Childhood Rhinopharyngitis	Oral Herpes
Children's Throat Infections	Osteoporosis
Chronic Sinusitis (Adult)	Tonsillitis

Each Drop (0.028 ml) Contains:

Dog Rose (*Rosa canina*)
Young Shoot Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23955**

Dogwood Bud

Cornus sanguinea

Dogwood Bud is a tenacious hardwood tree that grows on calcareous hillsides throughout Europe. There are two sexes to the Cornus tree. The Sanguinaria represents the female Cornus as each summer solstice her leaves turn red, symbolizing blood and the cyclical flow of this vital life force. In ancient Celtic mythology, Cornus Sanguinaria came to represent the symbol of the heart. Based on this doctrine of signatures this tree assists in moderating hypermetabolic states.

INDICATIONS

Haemorrhaging

Vascular System

Each Drop (0.028 ml) Contains:

Dogwood (*Cornus sanguinea*) Bud Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23956**

English Walnut Bud

Juglans regia

English Walnut travelled to the south-eastern regions of Europe during the last glacial age around 800BC. For its growth, it requires deep, fertile calcareous soil. The outer shell of the English Walnut appears like a small brain with all the evident corrugations, and its nut is rich in omega-3 essential fatty acids that aid in the nourishing of cerebral functions.

This remedy belongs to a plethoric and sanguine type of temperament. They are typically hot and subject to metabolic illnesses.

English walnut has immunoglobulin stimulating properties.

English Walnut also has digestive purification properties that aid in the treatment of chronic mucous membrane suppurations. It is through these deep and depurative digestive actions that it helps to alleviate many skin conditions.

English Walnut also has a primary affinity for the pancreas and assists in cases of pancreatic insufficiency and malabsorption syndromes through its stimulating actions on pancreatic secretions.

INDICATIONS

Infected Eczema	Post Antibiotic Diarrhoea
Insulin Deficiency	Varicose Ulcers
Pancreatic Problems	

Each Drop (0.028 ml) Contains:

English Walnut (*Juglans regia*) Bud Extract (1:20) ... 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23974**

European Hazel Bud

Corylus avellana

European Hazel populated itself across Europe over 20,000 years ago. It seeks fertile and robust soil for its rapid growth and alkalizes an acidic terrain as it grows. To the Druids, European Hazel had magical properties and became the symbol for the knowledge of hidden secrets and its wood was used in carvings of phallic symbols.

There are three primary functions for the hazel bud:

- It is an antisclerotic remedy used primarily for pulmonary fibrosis to restore the elasticity lost.
- It has a tonic action on the liver parenchyma and is used to treat hepatic insufficiencies.
- It has anti-anemic properties to restore erythropoietin and balances hypochromic and microcytic anemias.

Because of its gentler action on all metabolisms with the exception of glucosides, European Hazel Bud can be a remarkable polyvalent remedy.

INDICATIONS

Anemia	Hepatic Insufficiency
Chronic Bronchitis	Pulmonary Fibrosis
Emphysema	Smoker's Cough
Headaches	

Each Drop (0.028 ml) Contains:

European Hazel (*Corylus avellana*) Bud Extract (1:20) ... 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23960**

European Mistletoe Young Shoot

Viscum album

There is a characteristic doctrine of signatures to European Mistletoe and it is considered as a semi-parasitic plant. European Mistletoe has a very unique development in that there is much anarchy in its growth pattern making it a potentially beneficial remedy in conditions that mimic this type of abnormal growth.

European Mistletoe can break down fibrocystic conditions of the breasts and ovaries and exerts its effects anywhere in the body to break down abnormal scar tissues.

INDICATIONS

Deafness	Sciatica
Neuralgia	Sclerocystic Conditions

Each Drop (0.028 ml) Contains:

European Mistletoe (*Viscum album*)
Young Shoot Extract (1:20)..... 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23977**

Fig Bud

Ficus carica

Fig originated in Asia Minor, North Africa, and naturalized throughout Italy, Spain and the south of France. It grows in uncultivable soil and regenerates these intolerable terrains making the soil hospitable for other plant species to grow. Many parts of this tree contain an acrid and caustic milky substance that reflects the trees doctrine for treating acidic and ulcerous conditions. While on the other hand, the figs, the fruits of this tree, are nourishing and rich in sugars, mucilages and oligo-elements.

It exerts a powerful regulatory action in the cerebral hemisphere along the cortico-hypothalamic axis to balance the realm of emotions.

Fig has been defined as the psychosomatic regulator of the stomach. These 'emotional digester' qualities rendered Fig the primary remedy for treating digestive disturbances of an emotional origin ranging from esophageal dysphagia, hiatal hernias, reflux disorders and stomach cramps.

INDICATIONS

Colitis
Facial Neuralgia
Psychosomatic Difficulties

Each Drop (0.028 ml) Contains:

Fig (*Ficus carica*) Bud Extract (1:20)..... 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23957**

Giant Sequoia Young Shoot

Sequoia gigantea

Giant Sequoia originates in Sierra Nevada, California. Here, this majestic tree can grow up to 100 meters high where in the Parisian climate it reaches only up to 40 meters tall outside of its native soil.

Giant Sequoia stimulates and augments the 17-keto adrenal hormones. In men, it acts on the seminal vesicles, increases spermatozoid production. For women, Giant Sequoia assists as an estrogen precursor for menopausal transitions.

The secondary actions of Giant Sequoia are as a remineralizer, hepatic drainer and tonifier. In terms of bone health, Giant Sequoia stimulates osteogenesis in both men and women and helps counter osteoporosis and slow bone consolidation in addition to treating glass bone disease.

INDICATIONS

Adrenal Insufficiency Osteoporosis
Glass Bone Disease Trophic & Psychic Disorders
of Senescenes

Each Drop (0.028 ml) Contains:

Giant Sequoia (*Sequoia gigantea*)
Young Shoot Extract (1:20)..... 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23958**

Ginkgo Bud (formerly Ginkgogen)

Ginkgo biloba

Ginkgo Bud helps to boost and protect the microcirculation and reestablish healthy vaso-regulatory effects by enhancing capillary permeability and facilitating neo-angiogenesis. It has powerful antioxidant properties to stimulate cellular reoxygenation and quenches free radicals effectively stopping their progression before they lead to tissue degeneration. Ginkgo Bud is an excellent cognitive tonic; it elevates and restores concentration abilities for improved mental alertness and memory retention. It is useful for cerebral insufficiencies and neurosensory disorders.

INDICATIONS

Cognitive & Memory Support
Tissue & Vascular Protection
Cerebral Insufficiency

Each Drop (0.028 ml) Contains:

Ginkgo (*Ginkgo biloba*) Bud Extract (1:20)..... 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23805**

Hawthorn Young Shoot

Crataegus laevigata

Hawthorn grows everywhere across Europe, except in the regions where Olive grows. It is a thorny plant from the Rosacea family and became the symbol of longevity due to its actions on the heart and brain.

The main focus of Hawthorn is as a cardiac tonic for enhanced cardiac perfusion and cerebral irrigation. There is a high concentration of glycosides in its young shoots, which help regulate heart rate via cardiac impulses and myocardial tonus.

Hawthorn has positive inotropic properties to reinforce the force and amplitude of ventricular contractions, negative chronotropic actions to slow a rapid heart rate, dromotropic positive actions to facilitate neurocardiac impulses, repolarization and correction of ST depressions, and is bathmotropic positive to facilitate cardiac excitability. Lastly, Hawthorn is a normo-tensio-regulator for balancing vascular tone.

Hawthorn must be stopped prior to ECGs, and has a risk of potentiation and interference with cardiac medications, therefore, extreme care must be taken before administering.

INDICATIONS

Cardiac Health

Each Drop (0.028 ml) Contains:

Hawthorn (*Crataegus laevigata*)
Young Shoot Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23959**

Heather Young Shoot

Calluna vulgaris

Heather embeds itself at the forest's edge, where its roots penetrate the soil to form an impenetrable barrier that blocks and prevents other species from growing.

This doctrine mimics its therapeutic uses in the treatment of scleroamyloidosis. If amyloidosis has fixated into the tissues, it is too late for this remedy. It is geared towards treating evolutive degenerative amyloidosis of the brain, liver, adrenals, digestive mucous membranes, kidneys and endocrine glands back towards a hyalinized state.

Heather is comprised of tannins, as well as antiseptic and diuretic flavonoids, and the alkaloid ericodine. The plant is used for urinary problems as the flowers have an affinity for cystitis and urinary infections as a primary action with a secondary affinity for biliary lithiasis.

Heather is beneficial in the treatment of chronic hypoimmune and post-inflammation syndromes. It acts on prolonged suppurative diseases as well as osteomyelitis, chronic fibrous tuberculosis and chronic pyelonephritis.

INDICATIONS

Biliary Lithiasis	Nephroamyloidosis
Chronic Fibrous Tuberculosis	Osteomyelitis
Chronic Hypoimmune	Post-inflammatory Syndromes
Chronic Pyelonephritis	Scleroamyloidosis
Cystitis	Urinary Infections

Each Drop (0.028 ml) Contains:

Heather (*Calluna vulgaris*)
Young Shoot Extract (1:20)..... 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23961**

Horse Chestnut Bud

Aesculus hippocastanum

Horse Chestnut originated in Turkey and was eventually introduced to Europe as an ornamental tree in the 16th century. Based on the doctrine of signatures, the cracked fruit mimicked the semblance of a hemorrhoid.

The primary action of Horse Chestnut is as a portal system drainer with an affinity for the lower burner and a secondary site of action on the pulmonary sphere. The unique qualities of these buds help strengthen capillary resistance and reduce inflammation and swelling, thus reducing capillary permeability, while decongesting the portal venous system and easing respiratory insufficiencies.

INDICATIONS

Hemorrhoids
Poor Venous Circulation

Each Drop (0.028 ml) Contains:

Horse Chestnut (*Aesculus hippocastanum*)
Bud Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23962**

Juniper Young Shoot

Juniperus communis

Juniper is an interesting evergreen tree with durable wood and belongs to the pine family. It is characterized by the number three having leaves as sharp needles in groups of three, three bracts per flower, and taking three years for its fruits to mature. It symbolizes the trinity and the temperament of mystics, introverts, and those on a religious quest.

There are two primary sites of action for Juniper:

- It has depurative and vulnerary properties that aid in hepatic regeneration. Through these therapeutic actions, it can aid in the function of the liver and gallbladder. It also eases portal congestion and ensures decompensatory sequelae of these conditions.
- On the renal sphere Juniper facilitates diuresis and aids in the elimination of uric acids.

INDICATIONS

Major Hepatic Insufficiency

Each Drop (0.028 ml) Contains:

Juniper (*Juniperus communis*)
Young Shoot Extract (1:20)..... 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23963**

Lingonberry Young Shoot

Vaccinium vitis-idaea

Lingonberry is primarily a female remedy due to its estrogenic activity and the fact that the hydroalcoholic extracts of these young shoots contain estradiol. Lingonberry is to women, what Giant Sequoia is to men.

The main action of this remedy is treating hyalinized conjunctive tissues; in particular the ovaries, arteries, arterioles and kidneys. In women, Lingonberry breaks down the hyaline formation of ovarian cysts and uterine fibromas. In menopausal women, it reactivates the estrogenic activity of the ovaries to help balance vaginal dryness and hot flashes. On the renal plane, Lingonberry breaks down glomerular and tubular hyalinization and aids in the elimination of oxalo-calcific lithiasis, and appeases the pain of cystitis.

Lingonberry has a secondary action on the small intestine in the prevention of leaky gut syndrome and in the digestive plane helps to regulate gastric motility problems of constipation or diarrhoeas in cases of spasmodic colitis. It also assists with intestinal calcium reabsorption, which is extremely beneficial in post menopausal osteoporosis.

INDICATIONS

Colibacillosis

Intestinal Syndromes

Colitis

Menopausal Osteoporosis

Hyalinization Conditions

Each Drop (0.028 ml) Contains:

Lingonberry (*Vaccinium vitis-idaea*)
Young Shoot Extract (1:20)..... 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23964**

Mugo Pine Bud

Pinus mugo

Mugo Pine is a coniferous pine tree that regenerates degraded terrains, while subsequently acidifying the terrain beneath it so that other species can not grow. To the Vikings, the resin of the Mugo Pine was made into a ceremonial drink to fortify health and vigor before their long exploits.

The pineol contained within Mugo Pine's needles both stimulates and fortifies the defenses against invading bacteria and viruses.

The main actions of Mugo Pine however are to regenerate bone and cartilage through the chondrocyte stimulant actions on the osteo-articular sphere. This makes it an excellent remedy for the treatment of senile fractures and bone consolidation and osteoporosis.

INDICATIONS

Cartilage Regeneration

Osteoarthritis of the Hips and Knees

Immune Fortifier

Osteoporosis

Vertebral Osteoarthritis

Each Drop (0.028 ml) Contains:

Mugo Pine (*Pinus mugo*) Bud Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23965**

Oak Bud

Quercus robur

The Oak is a powerful tree that has become the emblem for longevity and tranquil force. To the ancient Druids, Oak embodied the strength of the human spirit and was the symbol of power for its role as the master of the forest as it protected the soil and all beneath it.

The buds of this great tree are used medicinally for their great regenerative and Yin tonifying actions on the glandular system, particularly in relation to the cortico-adrenal and male gonadal spheres. In relation to the adrenal glands, Oak stimulates 17-hydroxycorticoides (urinary), noradrenalin and cortisol to tonify a deficient adrenal gland.

In terms of hormonal health, it stimulates the gonadal secretion of testosterone in men and ovarian function in women especially when there is hormonal glandular fatigue.

Oak is also an excellent tonic in malnourished, fatigued, hypoadrenal and convalescent states and fortifies those with a low vital force.

INDICATIONS

Adrenal Atrophy Constipation
Chronic Fatigue in Men Vascular System Problems

Each Drop (0.028 ml) Contains:
Oak (*Quercus robur*) Bud Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:
Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23966**

Olive Young Shoot

Olea europaea

The Olive plant originated in Asia before spreading to Greece and across the European continent. The olive branch graciously became renowned as the universal symbol of peace, tranquility and prosperity and was crowned on the heads of youthful victorious Olympians.

The Olive itself is rich in monounsaturated fatty acids and contains oleic acid. This fatty acid is an excellent remedy in the preservation of arterial suppleness on the arterial terrain in both the cerebral and cardiovascular spheres. In addition, it has anti-hypercholesterolemic and antidyslipidemic properties.

INDICATIONS

Compulsive Obsessions Facial Neuralgia
Dyslipemia Nervous Phobias

Each Drop (0.028 ml) Contains:
Olive (*Olea europaea*) Young Shoot Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:
Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23967**

Raspberry Young Shoot

Rubus idaeus

The Raspberry plant is a member of the Rosacea family and its growth is an indicator of soil degradation due to acid blocks. The plant's red berries resemble ovaries garnished with many ovocytes and its propensity for addressing ovarian dysfunction and female hypogonadal conditions is evident through this doctrine of signatures.

Raspberry is used as an ovarian stimulant to enhance estrogen and progesterone production in cases of female hypogonadism and precocious climacteric states. It is the main female anti-senescence remedy.

In terms of uterine function, Raspberry is also a remarkable uterine muscular relaxant and therefore, can be used for uterine spasms during childbirth to facilitate the efficiency of contractions.

INDICATIONS

Female Problems Pelvic Pain
Female Senescence Uterine Spasms
Female Hypogonadism

Each Drop (0.028 ml) Contains:
Raspberry (*Rubus idaeus*)
Young Shoot Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:
Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23968**

Rosemary Young Shoot

Rosmarinus officinalis

Rosemary is primarily a liver regenerator and acts as both a liver and gall bladder drainer, with a mild affinity for the kidneys.

Traditionally, Rosemary was used as a culinary digestive stimulant for its cholagogue actions and on biliary lithiasis.

The liver tonifying properties of Rosemary help to stimulate the defenses and become a useful remedy in chronic degenerative allergies.

Due to the liver's actions in the steroidogenic pathway, Rosemary also assists with the processing of elevated triglycerides and balances the hormones in both men and women. For women, it helps clear the liver of excess hormones from birth control, and aids in the treatment of hormonal acne.

Rosemary may cause an euphoric state. High doses are cautioned because it may induce an epileptic condition.

INDICATIONS

Biliary Colic	Hepatic Insufficiency
Chronic Allergies	Senescence
Chronic Gallbladder Disorders	Side Effects of the Birth Control Pill
Crohn's Disease	

Each Drop (0.028 ml) Contains:

Rosemary (<i>Rosmarinus officinalis</i>)	
Young Shoot Extract (1:20).....	0.028 ml
1.4 mg Dried Equivalent	

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23969**

Sea Buckthorn Bud

Hippophae rhamnoides

Sea Buckthorn is a very unique plant that can differentiate itself into the two different sexes. It grows along unstable acidic soil and helps to consolidate the terrain in which it grows, and it is highly adaptable to various extremes in weather. It is only after 3-6 years that this plant can flower and produce berries that are considered "false fruits". It has one deep principal root that produces multiple horizontal branches that can extend up to 10m in length. Because it roots itself in nutrient-less soil, it depends on the aid of the fungal kingdom to create a symbiotic relationship in which to draw on nutrients to support its growth.

Historically the Greeks used this phytotherapy for improving the lustre of horses' hair hippophae (horse), phao (brilliant) and a vermifuge for veterinary health. The Tibetans used this remedy for encouraging the vitality, treating ailments of the skin, feminine ills, respiratory and stomach illnesses.

This doctrine supports the affinity of Sea Buckthorn in balancing intestinal mucosal microorganisms to help boost the immunity by supporting multiple biochemical enzymatic exchanges in the gut during convalescence.

INDICATIONS

Adaptogenic Herb	Fevers
Arterioles & Cardiac Rhythms	Immune Tonic
Cardiovascular Antioxidant	Influenza
Colds	Psycho-neuro-immunology
Convalescence	

Each Drop (0.028 ml) Contains:

Sea Buckthorn (<i>Hippophae rhamnoides</i>)	
Bud Extract (1:20).....	0.028 ml
1.4 mg Dried Equivalent	

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23970**

Servicetree Bud

Sorbus domestica

Servicetree is a Mediterranean tree from the Rosacea family. It grows slowly over a course of 5-600 years, in high light, and roots itself in deep, thick calcareous soil. Its fruits are rich in tannins, sorbitol and vitamin C, while its buds are viscous.

Servicetree's traditional use in Phytotherapy has a primary action on increasing the tone of the venous walls. It is to the veins as Hawthorn is to the arteries.

Servicetree also serves as a strong lymphatic drainer and assists in decreasing buzzing in the ears resulting from lymphatic congestion.

INDICATIONS

Venous Health
Lymphatic Stagnation

Each Drop (0.028 ml) Contains:

Servicetree (<i>Sorbus domestica</i>)	
Bud Extract (1:20).....	0.028 ml
1.4 mg Dried Equivalent	

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23978**

Silver Birch Bud

Betula pendula

Silver Birch is a European white birch. By species, this birch tree's root system has a drier propensity comparative to its cousins. It is a resilient tree that can colonize in dry, sterile, uncultivated land or regenerate a silicic rich forest in the process of degradation.

The primary therapeutic indications of these buds revolve around the growing or regenerative osteoblastic actions on bone health. It is also indicated in nervous system depletion and intellectual exhaustion.

Silver Birch stimulates the immune system, in particular, the reticulo-endothelial system, the liver, lymph nodes and spleen. It also promotes strong macrophagic actions in the Kupffer cells to help stimulate the liver.

Silver Birch also has a strong diuretic action and uric acid elimination capacities for improved renal health and relief of the pain associated with rheumatoid conditions.

INDICATIONS

Benign Breast Cysts	Liver & Kidney Health
Bone Fractures	Nervous System Depletion
Demineralization in Children & Adolescents	Osteomyelitis
Intellectual Exhaustion	

Each Drop (0.028 ml) Contains:
Silver Birch (*Betula pendula*) Bud Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:
Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23971**

Silver Fir Young Shoot

Abies alba

Silver Fir is a delicate pine tree. It grows slowly in rich silicic soil under the shelter of surrounding conifers for the protection they offer to facilitate its growth. Through this doctrine of signatures, it is evident how this plant species becomes relevant in facilitating the growth of children with the strong mineralization aspects required to sustain healthy development.

The Silver Fir species also has great regenerative properties. When combined with Dog Rose and Silver Birch their unique synergy facilitates the non-suppressive resolution and treatment of upper respiratory tract infections.

INDICATIONS

Childhood Rhinopharyngitis	Fractures
Children's Throat Infections	Tonsillitis

Each Drop (0.028 ml) Contains:
Silver Fir (*Abies alba*) Young Shoot Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:
Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23972**

Silver Linden Bud

Tilia tomentosa

Silver Linden is a neuro-sedative known for its antispasmodic and hypnotic effects. There are some conflicting eclectic opinions in regards to this remedy as they state that it is more than just a simple neuro-sedative, but that it exerts a much stronger and deeper action as it is known as a regenerator of the nervous system.

Silver Linden has no real determinant or isolated actions on its own. However, when used with certain other remedies it can augment their actions. Silver Linden, when combined with Fig, augments its tranquilizing effects in easing digestive issues and favours sleep in those who suffer from chronic insomnia.

INDICATIONS

Headaches	Neuralgia
Insomnia	Migraines
Nervous Anguish	

Each Drop (0.028 ml) Contains:
Silver Linden (*Tilia tomentosa*) Bud Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:
Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23973**

Spanish Chestnut Bud

Castanea sativa

Spanish Chestnut Bud originated in Iran over 25 centuries ago before its migration to Europe. It was a sacred tree revered by the ancient Druids. This tree represents a robust temperament with intolerance to contradiction.

Traditionally used in Phytotherapy to enhance venous circulation and tonify the venous system. It is a remedy for varicose veins, varicose ulcerations, and lymphatic stagnation.

INDICATIONS

Lymphatic Drainer Congestive Problems
Venous Drainer

Each Drop (0.028 ml) Contains:

Spanish Chestnut (*Castanea sativa*)
Bud Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23979**

White Birch Bud

Betula pubescens

White Birch Bud is a pioneering tree that colonizes where the land is drying out and the terrains are turbid. This species has a greater affinity for colder climates, and has a deep action because of its rich embryological principles and multiple therapeutic functions.

White Birch Bud is traditionally used in Phytotherapy to stimulate the immune system, in particular, the reticulo-endothelial system and the liver. In relation to the liver, White Birch Bud promotes strong macrophagic actions in the Kupffer cells to help stimulate the liver.

White Birch Bud slows down and stops cartilage destruction and reduces inflammation.

In terms of inflammation, Black Alder is a good complement to the White Birch bud.

INDICATIONS

Bone Fractures Fatigue
Colds Influenza
Constipation Rhinopharyngitis
Decalcification

Each Drop (0.028 ml) Contains:

White Birch (*Betula pubescens*)
Bud Extract (1:20) 0.028 ml
1.4 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23980**

Acn-gen

- Elm (*Ulmus campestris*)
- Juniper (*Juniperus communis*)
- Rosemary (*Rosmarinus officinalis*)

Acn-gen is a synergistic blend of Phyto-gens formulated specifically to treat acne on many different levels. Primarily, Acn-gen has a central action on the liver to help clear the hepatocytes of hormone synthesis and glandular organ functions with a secondary action on the intestinal mucous membranes. In addition, it helps liver and kidney function and acts by catabolizing endogenous depositions from metabolic skin ailments and infections, aiding with redirecting its transfer from the level of the skin to the proper emunctories for elimination.

MAIN FUNCTIONAL SUPPORT

Metabolic skin conditions

Each Drop (0.028 ml) Contains:

Elm (*Ulmus campestris*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Juniper (*Juniperus communis*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Rosemary (*Rosmarinus officinalis*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23921

Al-gen (formerly ALLER-GEN)

- Black Currant (*Ribes nigrum*)
- Rosemary (*Rosmarinus officinalis*)
- Juniper (*Juniperus communis*)

Al-gen contains synergistic plant extracts that have been selected for their ability to address the underlying biological terrain that predetermines the allergic triad. It exerts its effects by stimulating the adrenocortical and natural defense systems to neutralize the allergic complexes and modulate the histamine response. Al-gen addresses eczemas, allergic symptoms of the dermis, upper and lower respiratory tracts, including hay fever and allergy induced respiratory spasms, as well as allergic ailments affecting the mucous membranes.

MAIN FUNCTION

Helps to neutralize allergic complexes and modulate histamine response

Each Drop (0.028 ml) Contains:

Black Currant (*Ribes nigrum*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Rosemary (*Rosmarinus officinalis*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Juniper (*Juniperus communis*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23810

Alert-gen

- Silver Linden (*Tilia tomentosa*)
- Fig (*Ficus carica*)
- Olive (*Olea europaea*)

Alert-gen is a nervous system regulator. It regulates the cortico-hypothalamic axis and aids in balancing the neurotic involvement of functional or organic problems. It aids in balancing the entire psycho-neuro-immunological sphere by addressing the endocrine responses to emotional dysregulation and psychosomatic manifestations. It eases obsessive-compulsive disorders and spasmophilia of the digestive sphere or anywhere throughout the body effectively easing the transition towards calming of the nervous system from stress for restorative rest.

MAIN FUNCTIONAL SUPPORT

Mental fatigue

Each Drop (0.028 ml) Contains:

Silver Linden (*Tilia tomentosa*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Fig (*Ficus carica*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Olive (*Olea europaea*) Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23922

Antia-gen

- Ginkgo (*Ginkgo biloba*)
- Oak (*Quercus robur*)
- Olive (*Olea europaea*)

Antia-gen contains synergistic plant extracts that have been selected for their ability to reduce the oxidative stress and inflammation associated with the aging process by protecting the microcirculation and by stimulating the body's natural antioxidant status for renewed and improved cellular health. This formulation stimulates steroid hormone synthesis. Cellular tissues are revitalized and cerebral circulation is improved. Antia-gen is an important restorative during menopausal and andropausal transitions.

MAIN FUNCTION

Anti-aging

Each Drop (0.028 ml) Contains:

Ginkgo (*Ginkgo biloba*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Oak (*Quercus robur*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Olive (*Olea europaea*) Young Shoot Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23815**

Aox-gen (formerly Antioxi-gen)

- Rosemary (*Rosmarinus officinalis*)
- Black Currant (*Ribes nigrum*)
- Black Poplar (*Populus nigra*)

Aox-gen is a vascular alternative and protector of the organism's biological functions. This Phyto-gen has strong hepatoprotective actions in order to maintain healthy and youthful tissue integrity. The cleansing and depurative actions of glutathione and the antioxidant systems revitalize and strengthen the immune and vascular systems for the healthy promotion of improved circulation and enhanced cellular exchanges to combat physiological degeneration. Aox-gen is also used to rebalance the oxidative system.

MAIN FUNCTIONS

Supports the endogenous antioxidant systems and strengthens immune and vascular systems

Each Drop (0.028 ml) Contains:

Rosemary (*Rosmarinus officinalis*)
Young Shoot Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Black Currant (*Ribes nigrum*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Black Poplar (*Populus nigra*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23870**

Art-gen

- Olive (*Olea europaea*)
- Dogwood (*Cornus sanguinea*)
- Black Alder (*Alnus glutinosa*)

Art-gen is a synergistic combination of Phyto-gens formulated to facilitate healthy circulatory blood flow. There are three primary actions to this remedy. Art-gen aids balancing phospholipid levels. In addition, it aids with cerebral and cardiovascular irrigation to facilitate memory and cardiovascular perfusion. Lastly, Art-gen helps stimulate collateral arterial circulation to help irrigate and repair starved tissues.

MAIN FUNCTION

Supports healthy arterial circulations

Each Drop (0.028 ml) Contains:

Olive (*Olea europaea*) Young Shoot Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Dogwood (*Cornus sanguinea*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Black Alder (*Alnus glutinosa*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz) Product Code: **23923**

Bn-gen (formerly Bone-gen)

- White Birch (*Betula pubescens*)
- Giant Sequoia (*Sequoia gigantea*)
- Silver Fir (*Abies alba*)

Bn-gen tonifies, remineralizes and consolidates the ossification processes. This remedy's phosphocalcific and osteoblastic properties enable speedy reparation of fractures either from traumatic injury or bone degenerative processes stemming from hormonal osteoporosis. Bn-gen's regenerative and fortifying properties make it suitable for promoting healthy bone growth in both young and aging populations. Bn-gen is a remedy with a specific affinity for hip degeneration and fractures, joint pains and back aches while simultaneously keeping tendons and ligaments supple and tensile.

MAIN FUNCTIONAL SUPPORT

Rebuilds bone after fracture

Each Drop (0.028 ml) Contains:

White Birch (*Betula pubescens*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Giant Sequoia (*Sequoia gigantea*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Silver Fir (*Abies alba*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23890

Calm-gen

- Silver Linden (*Tilia tomentosa*)
- Fig (*Ficus carica*)
- Hawthorn (*Crataegus laevigata*)

Calm-gen has antispasmodic and neuroregulatory properties that help take the 'edge off' and assist in balancing the stresses of daily living. This remedy acts as a nervous system sedative, and alleviates the anticipatory nervousness that disrupts the digestive processes and calms the cortico-hypothalamic axis of the stress response. It also benefits nervousness, distress and emotional hypersensitivity issues. Calm-gen restores tranquility in a nervous-filled world.

MAIN FUNCTION

Relaxes

Each Drop (0.028 ml) Contains:

Silver Linden (*Tilia tomentosa*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Fig (*Ficus carica*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Hawthorn (*Crataegus laevigata*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

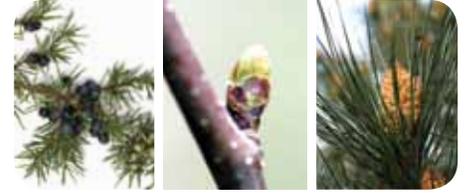

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23880

Car-gen (formerly Cartila-gen)

- Juniper (*Juniperus communis*)
- Silver Birch (*Betula pendula*)
- Mugo Pine (*Pinus mugo*)

Car-gen rebuilds and strengthens cartilaginous tissues and is a potent protector of the articulations. This remedy acts by stimulating chondrocytes and cartilage at the epiphyseal cartilaginous layer. It balances mineralization at the level of the kidneys. Car-gen acts as an anti-inflammatory and antirheumatic for chronic joint pains, growth pains and fracture prevention in the aged. It helps to slow down the daily wear and tear on the joints.

MAIN FUNCTION

Rebuilds and strengthens cartilaginous tissues

Each Drop (0.028 ml) Contains:

Juniper (*Juniperus communis*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Silver Birch (*Betula pendula*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Mugo Pine (*Pinus mugo*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23820

Cir-gen (formerly Circu-gen)

- Horse Chestnut (*Aesculus hippocastanum*)
- Spanish Chestnut (*Castanea sativa*)
- Servicetree (*Sorbus domestica*)

Cir-gen is a lymphatic and venous tonic which helps maintain a balanced circulatory flow while simultaneously patrolling for humoral diseases within these systems. It is useful in promoting the decongestion of the lymphatic and circulatory systems by removing the stagnation that leads to cellulite, edemas, hemorrhoids, varicose veins, pelvic congestion and swellings of the lower limbs including varicose ulcerations. Cir-gen is an excellent remedy during menopausal transitions, venous stagnation and for treating varicosities.

MAIN FUNCTION

Supports normal venous and lymphatic circulation

Each Drop (0.028 ml) Contains:

Horse Chestnut (*Aesculus hippocastanum*)
Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Spanish Chestnut (*Castanea sativa*) Bud Extract (1:20) ... 0.009 ml
0.47 mg Dried Equivalent
Servicetree (*Sorbus domestica*) Bud Extract (1:20) ... 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23825

Defense-gen

- Dog Rose (*Rosa canina*)
- Black Alder (*Alnus glutinosa*)
- Silver Birch (*Betula pendula*)

Defense-gen is a combination Phyto-gen geared towards stimulating the immune system in acute conditions. Defense-gen stimulates the Kupfferian cells and the splenic macrophages as well as the immune defenses targeting viral etiologies and inflammations of the mucosa. It is a great anti-inflammatory on the ear-nose-throat sphere and in repeated upper respiratory tract infections specifically within the early onset of mucosal suppurations. It is a great tonic in convalescent cases for both children and adolescents and for those with a demineralised, weakened and anemic terrain .

MAIN FUNCTION

Rebuilding a strong immune system

Each Drop (0.028 ml) Contains:

Dog Rose (*Rosa canina*) Young Shoot Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Black Alder (*Alnus glutinosa*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Silver Birch (*Betula pendula*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23924

Digest-gen

- Black Alder (*Alnus glutinosa*)
- Fig (*Ficus carica*)
- English Walnut (*Juglans regia*)

Digest-gen is a gastric tonic and protector of the digestive and pancreatic mucosal barriers. This remedy is a powerful gastric mucosal drainer and is essential in calming gastrointestinal inflammatory processes, cholecystitis, pancreatitis and irritable bowel disease. It improves lymphatic and blood circulation throughout the entire GI tract and eases malabsorption due to pancreatic insufficiency. Digest-gen benefits and expedites intestinal flora recuperation in post antibiotic induced diarrhoea. It is also effective in treating headaches of digestive origins.

MAIN FUNCTION

Reduction of stomach inflammation

Each Drop (0.028 ml) Contains:

Black Alder (*Alnus glutinosa*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Fig (*Ficus carica*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
English Walnut (*Juglans regia*) Bud Extract (1:20) ... 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23885

Dtx-gen

- Silver Birch Sap (*Betula pendula*)
- Black Currant (*Ribes nigrum*)
- Silver Birch Bud (*Betula pendula*)

Dtx-gen is a synergistic blend of phytotherapeutics geared towards the liver, kidneys, articulations, skin and mucosa. Dtx-gen helps to catabolize ureas and uric acids by increasing diuresis with corresponding urolytic actions on the renal and biliary spheres. On the hepatic sphere, Dtx-gen stimulates the Kupfferian cells and has a hypotryglyceridemic action. It is rich in vitamins and minerals and aids in remineralizing an acidic terrain and acts as an anti-inflammatory and anti-allergic remedy to balance the immune system.

MAIN FUNCTION

Supports liver processes

Each 1/2 Teaspoon (2.5 ml) Contains:

Silver Birch (<i>Betula pendula</i>) Sap.....	1.92 ml
Black Currant (<i>Ribes nigrum</i>) Bud Extract (1:20).....	0.125 ml
6.3 mg Dried Equivalent	
Silver Birch (<i>Betula pendula</i>) Bud Extract (1:20).....	0.125 ml
6.3 mg Dried Equivalent	

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 1/2 teaspoon (2.5 ml) once daily, or as recommended by your healthcare practitioner.

200 ml Liquid (6.8 fl oz)

Product Code: **23925**

Ener-gen

- Oak (*Quercus robur*)
- Grape (*Vitis vinifera*)
- Sea Buckthorn (*Hippophae rhamnoides*)

Ener-gen is a remarkable tonic for fatigued individuals. It works on many different levels to help awaken the vital healing forces needed to properly respond to chronic conditions that have not responded to treatments due to an insufficient healing response. It works to counter senescence by stimulating noradrenalin, tonifies the glandular systems and acts as an adaptogenic. It aids the microflora to facilitate proper intestinal absorption of vitamins, minerals and enzymes necessary for proper biochemical reactions. In addition, it is rich in nutrients essential for breaking down immunological chain reactions and to balance chronic inflammations that deplete the organism of vital energies.

MAIN FUNCTION

Rebuilds physical strength

Each Drop (0.028 ml) Contains:

Oak (<i>Quercus robur</i>) Bud Extract (1:20).....	0.009 ml
0.47 mg Dried Equivalent	
Grape (<i>Vitis vinifera</i>) Bud Extract (1:20).....	0.009 ml
0.47 mg Dried Equivalent	
Sea Buckthorn (<i>Hippophae rhamnoides</i>) Bud Extract (1:20).....	0.009 ml
0.47 mg Dried Equivalent	

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (1/4 oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23926**

Fem-gen

- Almond (*Prunus dulcis*)
- Oak (*Quercus robur*)
- Grape (*Vitis vinifera*)

Fem-gen is a synergistic blend of phytotherapeutic herbs to support adrenal and ovarian function in females, boosting vitality and libido. Oak stimulates ovarian function in women especially when there is hormonal glandular fatigue and sexual asthenia. It is an excellent tonic in malnourished, fatigued, hypoadrenal and convalescent states and helps to fortify those with a low vital force. Grape is indicated for female problems such as uterine fibromas and ovarian cysts. Almond can stimulate thyroid function.

MAIN FUNCTIONAL SUPPORT

Boost vitality in females

Each Drop (0.028 ml) Contains:

Almond (<i>Prunus dulcis</i>) Bud Extract (1:20).....	0.009 ml
0.47 mg Dried Equivalent	
Oak (<i>Quercus robur</i>) Bud Extract (1:20).....	0.009 ml
0.47 mg Dried Equivalent	
Grape (<i>Vitis vinifera</i>) Bud Extract (1:20).....	0.009 ml
0.47 mg Dried Equivalent	

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (1/4 oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23936**

Fluid-gen

- Olive (*Olea europaea*)
- Almond (*Prunus dulcis*)
- Judas Tree (*Cercis siliquastrum*)

Fluid-gen is an antisclerotic remedy that aids in breaking down scar tissues and scar tissue formation. Fluid-gen helps ease the movement of blood throughout the vascular system and aids in reducing vascular inflammation. This remedy has strong emulsification properties that help regulate triglyceride levels and excess vascular lipids. Fluid-gen aids in improving the microcirculation of the retinal and arterial systems and protects the noble organs from vascular damage.

MAIN FUNCTIONAL SUPPORT

Maintains microcirculation of retinal and arterial systems

Each Drop (0.028 ml) Contains:

Olive (*Olea europaea*) Young Shoot Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Almond (*Prunus dulcis*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Judas Tree (*Cercis siliquastrum*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23830

GlnD-gen

- White Birch (*Betula pubescens*)
- Rosemary (*Rosmarinus officinalis*)
- Raspberry (*Rubus idaeus*)

GlnD-gen is a synergistic blend of phytotherapeutic herbs to support hormone metabolism in men and women by stimulating the glands and promoting liver function for the elimination of excess hormones. White Birch Bud stimulates the liver. Rosemary, due to the liver's actions in the steroidogenic pathway, balances the hormones in both men and women. For women, it aids in the treatment of hormonal acne. Raspberry is used for ovarian dysfunction and female hypogonadal conditions, as is evident from its doctrine of signatures. Raspberry is used as an ovarian stimulant to enhance estrogen and progesterone production in cases of a female hypogonadism and precocious climacteric states. It is the main female anti-senescence remedy.

MAIN FUNCTIONAL SUPPORT

Supports hormone balance in men and women

Each Drop (0.028 ml) Contains:

White Birch (*Betula pubescens*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Rosemary (*Rosmarinus officinalis*)
Young Shoot Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Raspberry (*Rubus idaeus*) Young Shoot Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23937

Gluco-gen

- English Walnut (*Juglans regia*)
- Olive (*Olea europaea*)
- Black Poplar (*Populus nigra*)

Gluco-gen helps to normalize insulin secretions, lower blood sugar levels and supports circulation, especially in the legs. English Walnut has a primary affinity for the pancreas and assists in cases of pancreatic insufficiency by stimulating pancreatic secretions and normalizing insulin production. Olive itself is rich in monounsaturated fatty acids and contains oleic acid. It aids in hypoglycemic conditions. In addition, it has tremendous anti-hypercholesterolemic and antidiabetic properties. Black Poplar acts as an arterial antispasmodic relieving associated trophic disturbances. It is intended for short-term use only, 4-5 weeks, as it can lead to hepatic degeneration with prolonged use.

MAIN FUNCTIONAL SUPPORT

Blood glucose control

Each Drop (0.028 ml) Contains:

English Walnut (*Juglans regia*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Olive (*Olea europaea*) Young Shoot Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Black Poplar (*Populus nigra*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23938

Growth-gen

- Silver Birch (*Betula pendula*)
- Silver Fir (*Abies alba*)
- Dog Rose (*Rosa canina*)

Growth-gen is a remineralizing and bone strengthening formula. This remedy acts on all primary and secondary growth disorders stemming from childhood developmental difficulties to the demineralization and decalcification processes associated with aging. Growth-gen helps to rebalance abnormal growth patterns on the physical and psychological developmental planes. Growth-gen effectively treats back aches, synovial joint pains, and any condition associated with improper bone growth, development or osseous skeletal degeneration.

MAIN FUNCTIONAL SUPPORT

Healthy growth

Each Drop (0.028 ml) Contains:

Silver Birch (*Betula pendula*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Silver Fir (*Abies alba*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Dog Rose (*Rosa canina*) Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

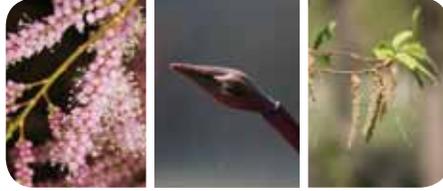

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23835

Hemo-gen

- Tamarisk (*Tamarix gallica*)
- Dogwood (*Cornus sanguinea*)
- Hornbeam (*Carpinus betulus*)

Hemo-gen is an erythropoietic, hematopoietic and coagulatory remedy. This combination of phytotherapeutics activate iron metabolism to stimulate the bone marrow and red blood cell production, making this remedy essential for treating hemorrhages, anemias, easy bruising and conditions resulting in low platelet counts. Its stimulating properties make it highly effective at treating vascular complications and acquired thrombopenia.

MAIN FUNCTIONAL SUPPORT

Hematopoietic Action

Each Drop (0.028 ml) Contains:

Tamarisk (*Tamarix gallica*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Dogwood (*Cornus sanguinea*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Hornbeam (*Carpinus betulus*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23875

Hpe-gen (formerly Hyper-gen)

- Dogwood (*Cornus sanguinea*)
- Hawthorn (*Crataegus laevigata*)
- Dog Rose (*Rosa canina*)

Hpe-gen is a synergistically blended combination of plant extracts formulated to regulate hyperactivity in the endocrine system. A swift central neuro-sedative effect is exerted to slow and gain control of a hyperactive metabolic system, and calm the corresponding sequelae on the cardiovascular system. It also addresses a wide range of imbalances such as exophthalmia, trembling, irritability, hyperactivity, tachycardia and possible ensuing palpitations.

MAIN FUNCTIONAL SUPPORT

Rebalancing a hyperactive thyroid

Each Drop (0.028 ml) Contains:

Dogwood (*Cornus sanguinea*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Hawthorn (*Crataegus laevigata*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Dog Rose (*Rosa canina*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23840

Hpo-gen (formerly Hypo-gen)

- Servicetree (*Sorbus domestica*)
- Almond (*Prunus dulcis*)
- White Birch (*Betula pubescens*)

Hpo-gen is a synergistic blend of mother macerates selected for their ability to activate the endocrine system. This remedy is geared towards stimulating and relaunching insufficient glandular production and secretion specifically targeting a sluggish metabolism.

Through its actions on the hypothalamo-pituitary-thyroid axis, Hpo-gen helps normalize end organ hormone levels for healthy weight rebalancing and metabolism.

MAIN FUNCTION

Rebalancing a hypoactive thyroid

Each Drop (0.028 ml) Contains:

Servicetree (*Sorbus domestica*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Almond (*Prunus dulcis*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 White Birch (*Betula pubescens*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23920**

Imu-gen (formerly Immuno-gen)

- Sea Buckthorn (*Hippophae rhamnoides*)
- English Walnut (*Juglans regia*)
- Dog Rose (*Rosa canina*)

Imu-gen strengthens and protects the natural immunity and circulatory defense systems against bacterial invasions. This combination of plant extracts help fortify the dermal and mucosal boundaries against infectious agents such as Streptococcal and Staphylococcal pathogens. Its high vitamin content helps restore convalescent deficiencies and its stimulatory actions help rebuild the intestinal flora to prevent future infectious recurrences. Imu-gen helps fight influenza and ailments of the skin.

MAIN FUNCTIONAL SUPPORT

Promotes the maturation of the immune system

Each Drop (0.028 ml) Contains:

Sea Buckthorn (*Hippophae rhamnoides*)
 Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 English Walnut (*Juglans regia*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Dog Rose (*Rosa canina*) Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23865**

Intest-gen

- English Walnut (*Juglans Regia*)
- Rosemary (*Rosmarinus officinalis*)
- Lingonberry (*Vaccinium vitis-idaea*)

Intest-gen contributes to the normal function of the gastro-intestinal tract. It stimulates the hepatobiliary digestive functions to help lipid metabolism as well as stimulating the pancreatic exocrine functions in cases of pancreatic insufficiency and malabsorption syndromes. It treats chronic mucous membrane suppurations and helps repair the intestinal mucosal lining. This in turn balances the intestinal microflora and enhances proper intestinal nutrient absorption and protects against infectious agents. Intest-gen treats intestinal syndromes such as colitis, diarrhoea, colibacillosis and IBD.

MAIN FUNCTIONAL SUPPORT

Intestinal structural and physiological health

Each Drop (0.028 ml) Contains:

English Walnut (*Juglans regia*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Rosemary (*Rosmarinus officinalis*)
 Young Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Lingonberry (*Vaccinium vitis-idaea*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23927**

Liv-gen

- Juniper (*Juniperus communis*)
- Black Currant (*Ribes nigrum*)
- English Walnut (*Juglans regia*)

Liv-gen is a universal drainage remedy. It drains the overall system with additional primary emunctory support to purify hepatic overloads and elimination from the renal system through an increase in diuresis. Liv-gen is also beneficial in conditions with chronic mucosal membrane suppurations due to its anti-infective and dysbiotic rebalancing and immunoglobulin and hepatic macrophage support. Liv-gen aids in helping to restore equilibrium and provide the adrenal stimulation necessary to move through convalescent illnesses.

MAIN FUNCTIONAL SUPPORT

Liver health

Each Drop (0.028 ml) Contains:

Juniper (*Juniperus communis*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Black Currant (*Ribes nigrum*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 English Walnut (*Juglans regia*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23928

Meno-gen

- Raspberry (*Rubus idaeus*)
- Mugo Pine (*Pinus mugo*)
- Lingonberry (*Vaccinium vitis-idaea*)

Meno-gen supports and protects women during their climacteric years. It enhances the functions of the ovarian glands to regulate the secretion of estrogen and progesterone throughout the hormonal fluctuations common during various transitional passages, including delayed secondary sexual development. This remedy assists in all menopausal imbalances from hot flashes and insomnia, to premature aging and bone degenerative problems such as osteoporosis due to poor intestinal calcium absorption.

MAIN FUNCTIONAL SUPPORT

The transition through menopause

Each Drop (0.028 ml) Contains:

Raspberry (*Rubus idaeus*) Young Shoot Extract (1:20) . . . 0.009 ml
 0.47 mg Dried Equivalent
 Mugo Pine (*Pinus mugo*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Lingonberry (*Vaccinium vitis-idaea*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23845

Met-gen (formerly Metabolo-gen)

- Olive (*Olea europaea*)
- Almond (*Prunus dulcis*)
- Rosemary (*Rosmarinus officinalis*)

Met-gen is a hyperlipidemic and serum cholesterol regulator. This Phyto-gen facilitates fatty acid metabolism along the proper metabolic pathways and hepatic emunctorial drainage resulting in vascular and cerebral protection. An excellent remedy for effectively providing vascular support during the aging process.

MAIN FUNCTIONAL SUPPORT

Supports healthy fatty acid metabolism

Each Drop (0.028 ml) Contains:

Olive (*Olea europaea*) Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Almond (*Prunus dulcis*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Rosemary (*Rosmarinus officinalis*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23915

Micro-gen

- Ginkgo (*Ginkgo biloba*)
- European Hazel (*Corylus avellana*)
- Bilberry (*Vaccinium myrtillus*)

Micro-gen is a powerful angio-protector formulated to protect and strengthen a fragile arterial system. This vascular fortification formula improves capillary resilience and microvasculature circulation to boost the antioxidant and nutrient exchange status for improved tissue perfusion and health. Micro-gen is a necessary tool in post rehabilitation due to its fibrinolytic actions. It benefits cases with extremity necrosis and other glycosylation sequelae such as retinopathies and sensorial disturbances.

MAIN FUNCTIONAL SUPPORT

Maintenance and regeneration of retinal and arterial microcirculations

Each Drop (0.028 ml) Contains:

Ginkgo (*Ginkgo biloba*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 European Hazel (*Corylus avellana*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Bilberry (*Vaccinium myrtillus*) Young Shoot Extract (1:20) ... 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23850**

Mig-gen

- Fig (*Ficus carica*)
- Black Currant (*Ribes nigrum*)
- Black Alder (*Alnus glutinosa*)

Mig-gen is a cerebro-vascular regulator and protector. It acts as a vascular anti-inflammatory to reduce vascular spasms and minimize vasodilatory effects which aid in diminishing capillary permeability in cerebral circulatory migraines. In addition, Mig-gen regulates the cortico-diencephalon axis acting as a neurosedative to calm stress and emotional distresses to restore and balance the homeostatic system. The spectrum of anti-inflammatory actions of these phytotherapeutics act to regulate the blood coagulability mechanisms to facilitate the sanguinous flow, reducing spasmophilia and aiding in circulatory irrigation to calm and detoxify the mind.

MAIN FUNCTIONAL SUPPORT

Helps with migraines

Each Drop (0.028 ml) Contains:

Fig (*Ficus carica*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Black Currant (*Ribes nigrum*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Black Alder (*Alnus glutinosa*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23929**

Mns-gen

- Black Currant (*Ribes nigrum*)
- Rosemary (*Rosmarinus officinalis*)
- Raspberry (*Rubus idaeus*)

Mns-gen is a female tonic formula. It is geared towards balancing and normalizing the hypophyso-cortico-adrenal axis. It provides hepatobiliary support and is hepatoprotective against synthetic hormone therapy excesses. On the ovarian sphere, Mns-gen regulates the ovarian hormone secretion of estrogen and progesterone. It acts as a uterine antispasmodic and anti-inflammatory to ease the pains of dysmenorrhea, minimize menorrhagia and pelvic cramps and discomforts associated with cyclical fluxes.

MAIN FUNCTIONAL SUPPORT

Supports a comfortable menstrual cycle

Each Drop (0.028 ml) Contains:

Black Currant (*Ribes nigrum*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Rosemary (*Rosmarinus officinalis*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Raspberry (*Rubus idaeus*) Young Shoot Extract (1:20) ... 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23930**

Ocu-gen

- Bilberry (*Vaccinium myrtillus*)
- Sea Buckthorn (*Hippophae rhamnoides*)
- Judas Tree (*Cercis siliquastrum*)

Ocu-gen is an effective remedy for improving ocular and retinal microcirculation. It is rich in anthocyanosides, flavonoids and antioxidants which are vasculo-protective. It is also rich in many vitamins that facilitate vascular tone for improved circulation and an improvement in vision, especially nocturnal vision. It aids in arterial inflammation, arterial spasms and blood flow through the tiny microcirculatory vessels where they can reperfuse and irrigate these delicate tissues.

MAIN FUNCTIONAL SUPPORT

Helps maintain healthy vision

Each Drop (0.028 ml) Contains:

Bilberry (<i>Vaccinium myrtillus</i>)	
Young Shoot Extract (1:20)	0.009 ml
0.47 mg Dried Equivalent	
Sea Buckthorn (<i>Hippophae rhamnoides</i>)	
Bud Extract (1:20)	0.009 ml
0.47 mg Dried Equivalent	
Judas Tree (<i>Cercis siliquastrum</i>) Bud Extract (1:20)	0.009 ml
0.47 mg Dried Equivalent	

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23931**

Osteo-gen

- Mugo Pine (*Pinus mugo*)
- Lingonberry (*Vaccinium vitis-idaea*)
- Blackberry (*Rubus fruticosus*)

Osteo-gen is an osteo-protective formula that slows the destructive processes to bones that arise from demineralizing diseases such as osteoporosis. This Phyto-gen stimulates chondrocytes, boosts osteoblastic formation, inhibits osteoclastic destruction and enhances intestinal calcium re-absorption to enhance, strengthen, remineralize and regenerate the bone matrix. This remedy works directly on reconstructing bone health and integrity and is indicated in any skeletal changes with hyaline cartilage inflammation.

MAIN FUNCTION

Maintains, and supports the rebuilding and regeneration of bone

Each Drop (0.028 ml) Contains:

Mugo Pine (<i>Pinus mugo</i>) Bud Extract (1:20)	0.009 ml
0.47 mg Dried Equivalent	
Lingonberry (<i>Vaccinium vitis-idaea</i>)	
Young Shoot Extract (1:20)	0.009 ml
0.47 mg Dried Equivalent	
Blackberry (<i>Rubus fruticosus</i>)	
Young Shoot Extract (1:20)	0.009 ml
0.47 mg Dried Equivalent	

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23855**

Perid-gen

- Oak (*Quercus robur*)
- Dog Rose (*Rosa canina*)
- Cedar of Lebanon (*Cedrus libani*)

Perid-gen is a synergistic blend of Phyto-gens geared towards supporting oral and periodontal health. It helps to tonify the alveodental wall, bleeding gums and weakened gums as well as aiding in the tonification of the gingival mucosal lining. It is geared towards fighting chronic and repeated infections of the ENT sphere and aids in reducing inflammation and infections by stimulating a weakened immunity on a deficient terrain. Perid-gen also supports decalcified states and alters collagen tissue.

MAIN FUNCTION

Oral and periodontal health support

Each Drop (0.028 ml) Contains:

Oak (<i>Quercus robur</i>) Bud Extract (1:20)	0.009 ml
0.47 mg Dried Equivalent	
Dog Rose (<i>Rosa canina</i>) Young Shoot Extract (1:20)	0.009 ml
0.47 mg Dried Equivalent	
Cedar of Lebanon (<i>Cedrus libani</i>)	
Young Shoot Extract (1:20)	0.009 ml
0.47 mg Dried Equivalent	

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

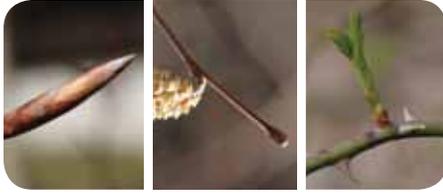

15 ml Liquid (0.5 fl oz)

Product Code: **23932**

Pulmo-gen

- European Beech (*Fagus sylvatica*)
- European Hazel (*Corylus avellana*)
- Blackberry (*Rubus fruticosus*)

Pulmo-gen strengthens the respiratory system and facilitates the respiratory processes. This remedy has powerful antisclerotic properties. Its ability to drain the pulmonary system and restore elasticity to the tissues makes it an ideal remedy for individuals suffering from pulmonary insufficiency due to smoking, and post convalescence with resulting pulmonary sclerosis.

MAIN FUNCTION

Maintains and strengthens respiratory health

Each Drop (0.028 ml) Contains:

European Beech (*Fagus sylvatica*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
European Hazel (*Corylus avellana*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Blackberry (*Rubus fruticosus*)
Young Shoot Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23900**

Renal-gen

- Juniper (*Juniperus communis*)
- Elm (*Ulmus campestris*)
- Corn (*Zea mays*)

Renal-gen supports kidney and liver function whenever there is chronic auto-intoxication, aiding in metabolic skin conditions. Corn Root Bark (*Zea mays*) is indicated for both kidney and urinary inflammations. European Field Elm Bud (*Ulmus campestris*) supports metabolic skin conditions. In terms of the integumentary system, *Ulmus Campestris* has a greater affinity for weeping lesions such as eczema, acne and psoriatic lesions. Juniper Young Shoot (*Juniperus communis*) acts on the renal sphere by facilitating diuresis and aiding in the elimination of uric acids. It has depurative and vulnerary properties that aid in hepatic health, support liver and gallbladder function and ease portal congestion.

MAIN FUNCTION

Reduces urinary tract inflammation and supports kidney function

Each Drop (0.028 ml) Contains:

Juniper (*Juniperus communis*)
Young Shoot Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Elm (*Ulmus campestris*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Corn (*Zea mays*) Root Bark Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23939**

Renu-gen

- Hawthorn (*Crataegus oxyacantha*)
- Oak (*Quercus robur*)
- Silver Linden (*Tilia tomentosa*)

Renu-gen is a great tonic for those who have a low vital force and sleep disorders. Silver Linden is a sedative and anxiolytic with antispasmodic effects. It helps to induce sleep and calms those who are overstressed or overworked. Oak is an excellent tonic in malnourished, fatigued, hypoadrenal and convalescent states and fortifies those with a low vital force. Hawthorn supports the heart and the brain. It has a sedative action on the central nervous system.

MAIN FUNCTION

Supports a healthy vital force

Each Drop (0.028 ml) Contains:

Hawthorn (*Crataegus oxyacantha*)
Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Oak (*Quercus robur*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Silver Linden (*Tilia tomentosa*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: **23940**

Skn-gen

- English Walnut (*Juglans regia*)
- Elm (*Ulmus campestris*)
- Cedar of Lebanon (*Cedrus libani*)

Skn-gen is a Phyto-gen combination geared towards cleansing and preventing their deposition at the level of the skin. Due to its strong ability to support both the liver and the kidneys, Skn-gen helps clear metabolic skin ailments and secondary skin infections. In addition, it is rich in astringing tannins and antiseptic and anti-inflammatory phenolic acids for infected skin lesions. It has a depurative action on the integumentary system. Skn-gen is also rich in omega-3 fatty acids aiding in the restoration of suppleness and elasticity to dry, lichenified and sclerodermosed conditions.

MAIN FUNCTION

Restoration of skin health

Each Drop (0.028 ml) Contains:

English Walnut (*Juglans regia*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Elm (*Ulmus campestris*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Cedar of Lebanon (*Cedrus libani*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

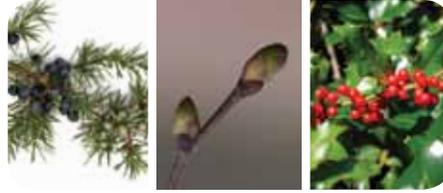

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23933

Spm-gen (formerly Spasm-gen)

- Juniper (*Juniperus communis*)
- Silver Linden (*Tilia tomentosa*)
- English Holly (*Ilex aquifolium*)

Spm-gen is a gentle neuro-sedative with antispasmodic actions of nervous, muscular and digestive origins. This combination of Phyto-gens tonifies an exhausted nervous system. It can be used in cases of spasms located anywhere within the body. Spm-gen also remedies cardiac palpitations and nervous system disorders such as spasmodic attacks, insomnia and digestive cramps.

MAIN FUNCTION

Antispasmodic

Each Drop (0.028 ml) Contains:

Juniper (*Juniperus communis*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Silver Linden (*Tilia tomentosa*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 English Holly (*Ilex aquifolium*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23910

Tonic-gen

- Oak (*Quercus robur*)
- Giant Sequoia (*Sequoia gigantea*)
- Black Currant (*Ribes nigrum*)

Tonic-gen has a hypophyso-cortico-adrenal action. It stimulates the glandular systems and helps to treat adrenal insufficiency and adrenal burnout through the stimulation of 17-keto adrenal hormones. Tonic-gen regulates the overall adaptation responses for an enhanced sense of vitality and euphoria. It is yang in nature and helps to tonify the nervous and glandular systems for senescence, sexual asthenia and fatigue. It boosts hormone levels and facilitates the adaptogenic response to an overtaxed system.

MAIN FUNCTION

Regulates cortico-adrenal function

Each Drop (0.028 ml) Contains:

Oak (*Quercus robur*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Giant Sequoia (*Sequoia gigantea*)
 Young Shoot Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent
 Black Currant (*Ribes nigrum*) Bud Extract (1:20) 0.009 ml
 0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

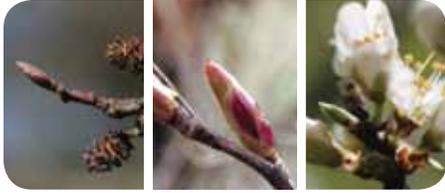

15 ml Liquid (0.5 fl oz)

Product Code: 23934

Trauma-gen

- Black Alder (*Alnus glutinosa*)
- Black Currant (*Ribes nigrum*)
- Hawthorn (*Crataegus laevigata*)

Trauma-gen is a nervous system relaxant and sedative. It is useful for any situation resulting in emotional, psychological, surgical or physical shocks to the system. It assists where the survival responses are over exerting their sympathetic physiological responses and taxing the compensatory ability of the system to return to a state of homeostasis. Trauma-gen is also useful as an anti-inflammatory agent, to address shock, to alleviate cardiovascular incidents and regulate blood pressure related to stress or shock.

MAIN FUNCTION

Relaxant

Each Drop (0.028 ml) Contains:

Black Alder (*Alnus glutinosa*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Black Currant (*Ribes nigrum*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Hawthorn (*Crataegus laevigata*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23905

Uri-gen (formerly Uric-gen)

- Silver Birch (*Betula pendula*)
- Juniper (*Juniperus communis*)
- European Ash (*Fraxinus excelsior*)

Uri-gen is a powerful hepato-renal drainer. This remedy protects the synovia, ligaments, tendons and joints and stimulates healthy diuresis to support both urea levels and dissolve urinary calculi.

MAIN FUNCTION

Aids uric acid drainage

Each Drop (0.028 ml) Contains:

Silver Birch (*Betula pendula*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Juniper (*Juniperus communis*)
Young Shoot Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
European Ash (*Fraxinus excelsior*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23860

Vrl-gen

- Black Currant (*Ribes nigrum*)
- Sea Buckthorn (*Hippophae rhamnoides*)
- Black Alder (*Alnus glutinosa*)

Vrl-gen is a synergistic Phyto-gen blend combined to help strengthen the natural defenses in order to mount an appropriate immune response to viral aggressors. Vrl-gen works on several spheres. It stimulates the adreno-cortico axis for cortisone-like actions in allergies and increases resistance to colds and flus. It increases circulation, stimulates the eosinophilic cascade series and balances intestinal symbiosis with the enterocytes to facilitate proper microflora expression and corresponding immune responses. Vrl-gen is effective during the suppurative phase and reduces mucosal inflammations. Vrl-gen is an effective remedy against viral infections of the ENT sphere.

MAIN FUNCTION

Acute immune support

Each Drop (0.028 ml) Contains:

Black Currant (*Ribes nigrum*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Sea Buckthorn (*Hippophae rhamnoides*)
Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent
Black Alder (*Alnus glutinosa*) Bud Extract (1:20) 0.009 ml
0.47 mg Dried Equivalent

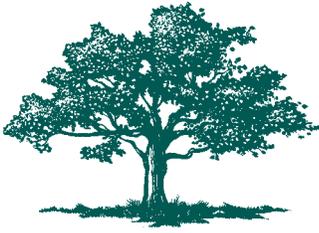

Non-Medicinal Ingredients: Purified water, ethanol (grain), glycerin

Recommended Dose:

Adults and Children (over 12 years): Take 10 drops once daily or as recommended by your healthcare practitioner. Invert bottle to 45° and shake lightly allowing drops to fall directly into mouth or in 7 ml (¼ oz.) of water.

15 ml Liquid (0.5 fl oz)

Product Code: 23935

GENESTRA BRANDS

HIGHEST QUALITY AND SCIENTIFICALLY SOUND FORMULAS

A clinical nutrition leader, GENESTRA BRANDS™ 300 nutritional, herbal and homeopathic products including: Human MicroFlora (HMF) probiotics, essential fatty acids, digestive aids, women’s health formulas, naturally emulsified hypoallergenic vitamins, amino acid chelated minerals, proteins and amino acids, glandular concentrates, standardized extracts, and wildcrafted or certified organic tinctures. GENESTRA BRANDS™ help maximize patient compliance and individualize patient treatment with a wide array of product formulas and dosage formats (chewables, powders, liquids, sprays, creams and capsules) as well as a wide range of products suitable for vegans which are 100% pure vegetable sourced. Formulations include synergistic herbs and other co-factors in ratio-specific amounts in order to allow for optimal bioavailability and efficacy.

Probiotics

These probiotics are research driven and clinically proven with human trials to quickly and consistently proliferate the gastrointestinal tract. The Human MicroFlora (HMF) bacteria strains are non-pathogenic proprietary human-sourced *Lactobacilli* and *Bifidobacteria*, specifically selected for higher adherence versus animal or soil-based strains, and for naturally high tolerance to acid. GENESTRA BRANDS™ HMF Probiotics have a wide product range for various conditions and physiological requirements. This product line is available in a variety of formats (powders, capsules and chewable tablets) to allow for flexibility in administration and patient compliance.

Prebiotics are non-digestible food components, generally classed as soluble fiber, that have two fundamental benefits to host health. These are: stimulation of the normal intestinal *Bifidobacteria* and *Lactobacilli* populations, including stimulation of the supplemented HMF probiotic *Lactobacilli* and *Bifidobacteria*; and stimulation of production of the short chain fatty acids butyrate, propionate and acetate.

Essential Fatty Acids

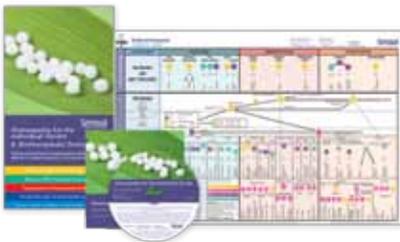

Consistent efficacy, purity, stability and superb palatability.

- Sourced from wild fish: premium fish oils with the richest, natural concentration of EPA and DHA
- Great tasting flavours for excellent patient compliance
- Naturally enriched for higher EPA and DHA concentrations using patented NEO-3™ and CRYO-3 processes: virtually eliminates heavy metals; delivers cleaner taste without fishy after-taste or odour
- Multiple formats available: capsules and liquids
- In compliance with international fish oils standards

Seroyal Continuing Medical Education

Seroyal offers research and practice-based continuing education. The mandate of Seroyal’s professional medical education program is to provide healthcare practitioners with world-class, clinically relevant information to assist in the integration of therapeutic modalities for a more complete, holistic approach. International experts in natural medicine and science will share knowledge, clinical experiences and reference materials to help expand your therapeutic capabilities and support your practice.
