

Session 3 of 4

Presented by Dr. Mikhael Adams, BSc, ND

Speaker Disclosure

I am a paid advisor to Seroyal. I have no other conflicts of interest to disclose.

The Company assumes no liability for presenter's information, whether conveyed verbally or in these materials. All presentations represent the opinions of the presenter and do not represent the position or the opinion of the Company. Reference by the presenter to any specific product, process or service by trade name, trademark, or manufacturer does not constitute or imply endorsement or recommendation by the Company

Seminars, teleconferences and webinars such as this are for educational purposes only and are intended for licensed health care practitioners

Practitioners are solely responsible for the care and treatment provided to their own patients. The information provided by speakers in this educational program, together with any written material, do not necessarily represent the view of Seroyal and are not intended as medical advice

Homeopathy, Phytotherapy, Gemmotherapy, Oligo-elements and Schüessler Tissue Salts are modalities used in traditional medicine. Homeopathic uses are based on the Materia Medica and are not supported by clinical trials. These therapies are not substitutions for standard medical care

Individual Organ Systems

Individual embryonic plant tissue extracts have a distinct affinity to specific organ systems

Their properties support the elimination of toxins as well as tissue repair and regeneration in the related organ systems

The concept of Gemmotherapy encompasses the basis of natural medicine and the fundamental principles of homeopathic medicine as founded by Samuel Hahnemann

When used in conjunction with Oligotherapy, Gemmotherapy facilitates the Biotherapeutic Drainage® paradigm

Gemmotherapy Remedies

Gemmotherapy Remedy	Associated System(s)
Abies Alba	Cardiovascular, General Health, Immune, Musculoskeletal
Acer Campestre	Cardiovascular, Hepato-biliary, Immune, Metabolic, Nervous
Aesculus Hippocastanum	Cardiovascular, Endocrine
Alnus Glutinosa	Cardiovascular, Digestive, Immune, Mucosal Membranes, Musculoskeletal, Respiratory, Urogenital
Ampelopsis Veitchii	Cardiovascular, Musculoskeletal
Betula Pendula Bud	Cardiovascular, Hepatic, Metabolic, Immune, Musculoskeletal, Nervous, Usary
Betula Pubescens Bud	Digestive, Immune, Metabolic, Musculoskeletal, Urinary
Cedrus Libani	Cutaneous, Hepatic, Immune, Urinary
Crataegus Oxyacantha	Cardiovascular, Endocrine, Nervous
Ficus Carica	Digestive, Immune, Metabolic, Nervous
Juglans Regia	Cutaneous, Digestive, Endocrine, Immune, Nervous, Urogenital
Juniperus Communis	Digestive, Hepatic, Immune, Metabolic, Urinary

Gemmotherapy Remedies

Gemmotherapy Remedy	Associated System(s)
Olea Europaea	Cardiovascular, Metabolic, Nervous
Pinus Montana	Hepatic, Musculoskeletal
Platanus Orientalis	Cutaneous, Mucosal Membranes
Prunus Amygdalus Bud	Cardiovascular, Endocrine, Hepatic, Metabolic, Urogenital
Quercus Pedunculata	Endocrine, General Health, Immune
Ribes Nigrum	Endocrine, General Health, Immune, Metabolic, Musculoskeletal
Rosa Canina	Endocrine, Immune, Musculoskeletal
Rosmarinus Officinalis	Cardiovascular, Digestive, General Health, Hepatic, Immune, Metabolic, Nervous
Rubus Idaeus	Endocrine, Hepatic
Sequoia Gigantea	Endocrine, Hepatic, Musculoskeletal
Sorbus Domestica	Cardiovascular, Cerebral Circulation, Lymphatic
Syringa Vulgaris	Cardiovascular, Immune, Metabolic

Gemmotherapy Remedies

Gemmotherapy Remedy	Associated System(s)
Tilia Tomentosa	Cardiovascular, Digestive, Endocrine, General Detoxification, Nervous
Ulmus Campestris	Cutaneous, Hepatic, Immune, Metabolic, Musculoskeletal, Nervous, Urinary
Vaccinium Vitis Idaea	Digestive, Endocrine, Metabolic, Serous Mucous Membranes, Urinary
Zea Mais	Cardiovascular, Hepatic, Urinary

Endocrine System

Endocrine System Overview

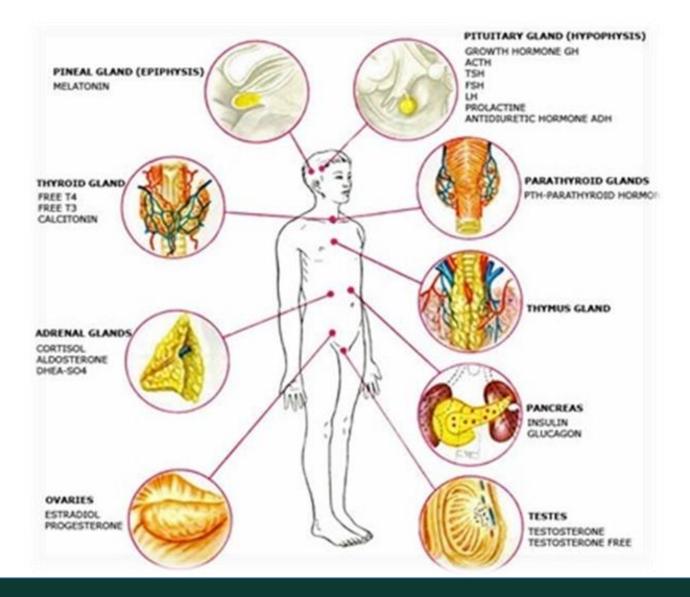

- The endocrine system consists of several glands and organs Adrenals,
 Hypothalamus, Parathyroid, Pituitary, Pineal, Pancreas, Ovary/Testes, Thyroid and Thymus
- These glands and organs each produce and release the specific chemical substances and/or hormones our body requires to perform vital functions
- Endocrine function impacts every aspect of our health

Endocrine System

History of Ribes Nigrum (Black Currant)

Black Currant originated in the Himalayas and the plains of Nepal

Its berries are rich in vitamin C and bioflavonoids, providing antioxidant effects

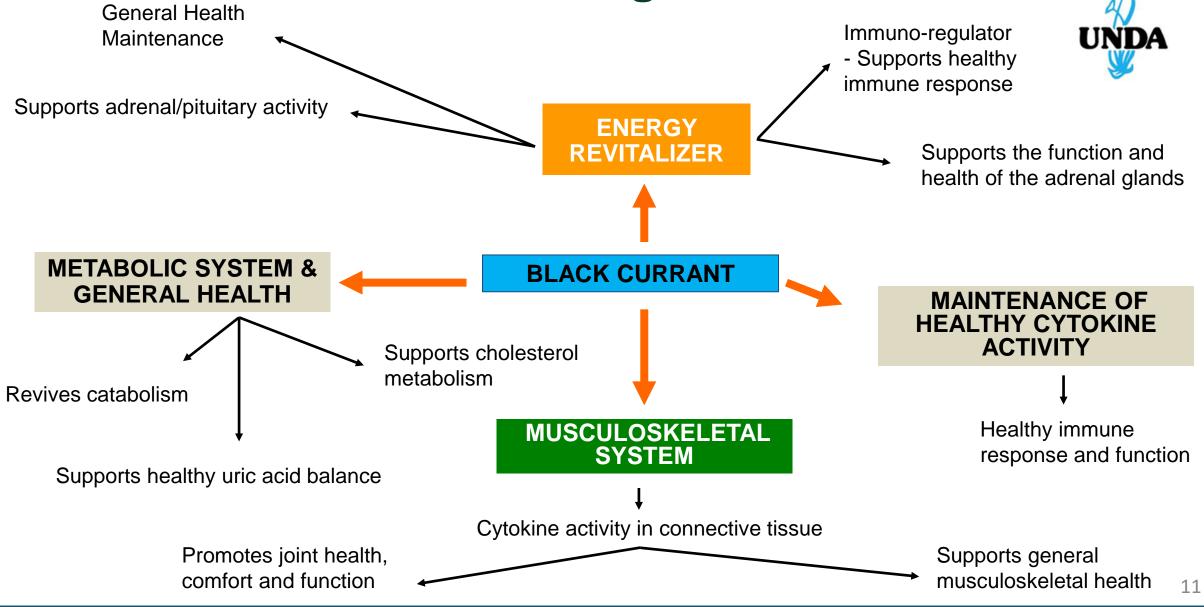

Black Currant has a wide spectrum of activity, demonstrating its polyvalent actions

The bud is used in Phytotherapy for its roles in joint, digestive and respiratory health and adrenal function. Its use also relates to the urogenital, endocrine, immune, circulatory and visual systems

Ribes Nigrum

Ribes Nigrum

Organ System Applications:

Endocrine, General Health, **Immune**, Metabolic, Musculoskeletal

Applications:

- Supports:
 - The function and health of the adrenal glands
 - Adrenal/pituitary activity
 - Healthy immune response and function
 - Cholesterol metabolism
 - Uric acid balance
 - Maintenance of healthy cytokine activity
 - · General health maintenance

EACH DROP (0.025 ml) CONTAINS:

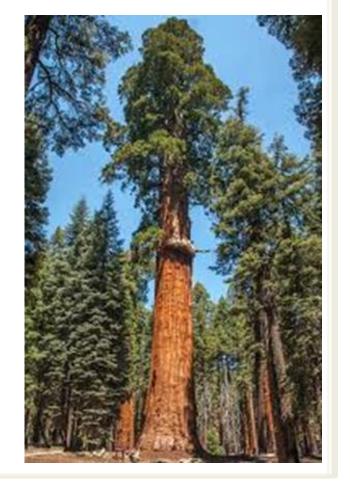

History of Sequoia Gigantea (Giant Sequoia)

The Giant Sequoia originated in Sierra Nevada, California. In California, this majestic tree can grow up to 100 meters, whereas in the Parisian climate, outside of its native soil, it reaches up to only 40 meters tall

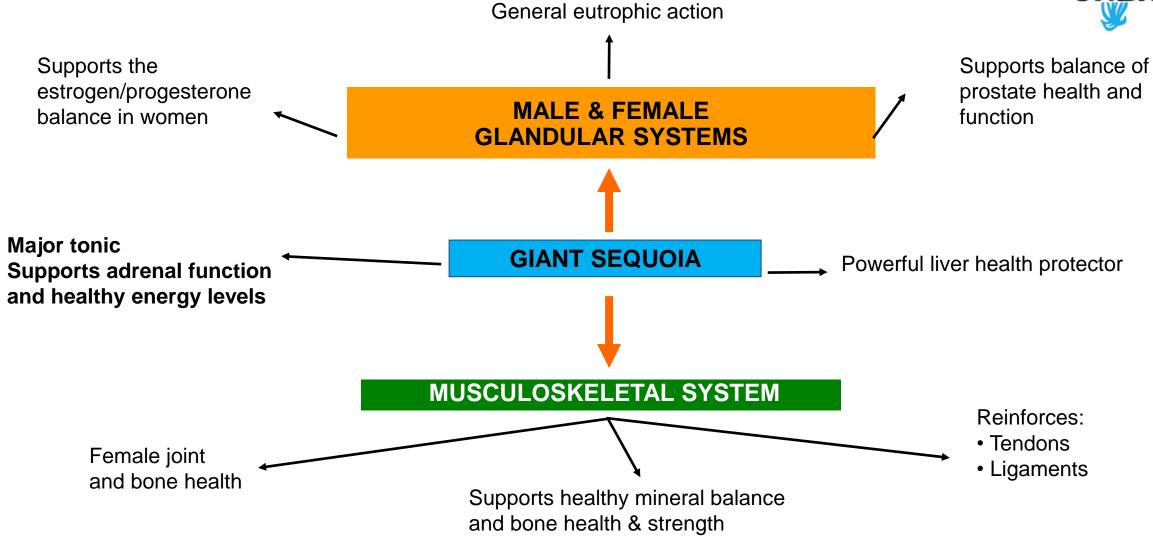

Giant Sequoia traditionally has been used to target the musculoskeletal and nervous systems as it regulates bone and cognitive health. It is also used as a body and sexual tonic for both men and women

Sequoia Gigantea

Sequoia Gigantea

Organ System Applications: Endocrine, Hepatic, Musculoskeletal

Applications:

- Supports:
 - Adrenal function and healthy energy levels
 - Estrogen/progesterone balance in women
 - Balance of prostate function and health
 - Healthy mineral balance and bone health and strength
 - Liver health

EACH DROP (0.025 ml) CONTAINS:

Giant Sequoia (Sequoia gigantea) Young Shoot Extract (1:200) 0.025 ml 0.125 mg Dried Equivalent

History of Quercus Pedunculata/Robur (Oak)

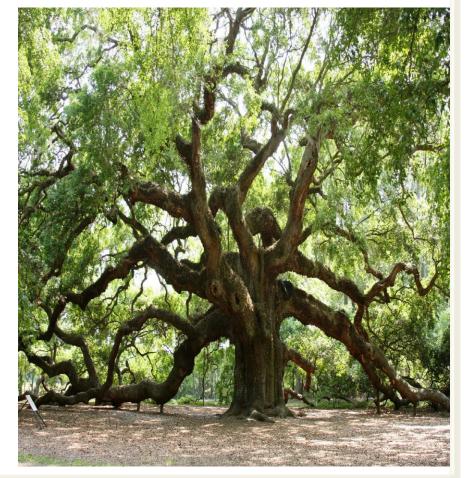

The Oak is a powerful tree that has become the emblem for longevity and tranquil force. To the ancient Druids, Oak embodied the strength of the human spirit and was the symbol of power for its role as the master of the forest, as it protected the soil and all beneath it

Constituents of the Oak tree, such as the buds, traditionally have been used in phytotherapy for their great actions on the glandular system. Oak also has a role in the regulation of hormone synthesis

The use of Oak also primarily relates to the nervous system. It is used to encourage vitality and has a tonic activity at both the psychic and physic levels of the organism

In particular, Oak is a tonic of the reticuloendothelial system

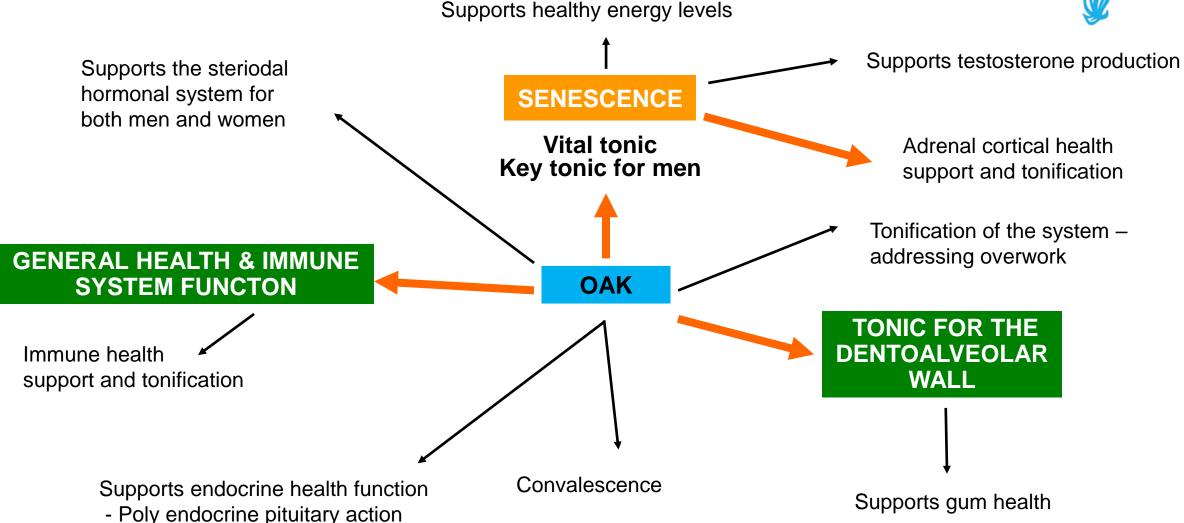

In terms of oral health, Oak's traditional use revolves around gum health. Oak also has roles in the digestive and urogenital systems

Quercus Pedunculata

Quercus Pedunculata

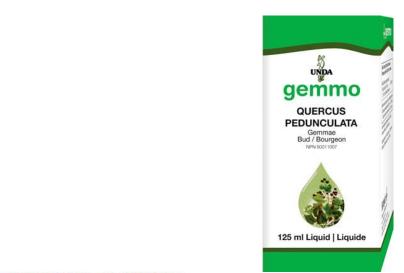

Organ System Applications: Endocrine, General Health, Immune

Applications:

- Supports:
 - Adrenal health
 - Testosterone production
 - Endocrine function
- Tonifies the system and supports immune health

EACH DROP (0.025 ml) CONTAINS:

History of Rubus Idaeus (Raspberry Bush)

The Raspberry bush is a member of the Rosacea family and its growth is an indicator of soil degradation due to acid blocks

This plant's red berries resemble ovaries garnished with many ovacytes, and its traditional use in ovarian and female gonadal health is evident through its doctrine of signatures

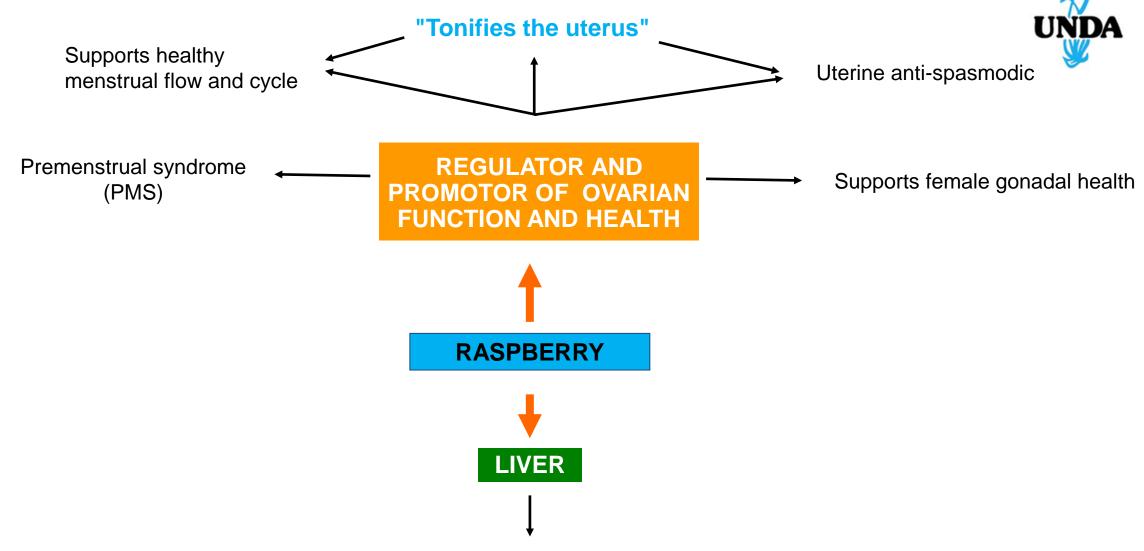

Raspberry is a very female remedy, as it traditionally has been used in ovarian hormone production. It is also used in Phytotherapy to regulate menstruation and sexual pilosity

Raspberry is a remarkable factor in uterine health, and can therefore be used during menstruation, as well as during childbirth

Rubus Idaeus

Protects the liver and supports healthy management of hormones

Rubus Idaeus

Organ System Applications: Endocrine, Hepatic

Applications:

- Supports:
 - Tonification and health of the uterus
 - A healthy menstrual cycle and flow
 - Ovarian function and health
 - Female endocrine system balance

EACH DROP (0.025 ml) CONTAINS:

Raspberry Bush (*Rubus idaeus*) Young Shoot Extract (1:200) 0.025 ml 0.125 mg Dried Equivalent

Nervous System

Nervous System Overview

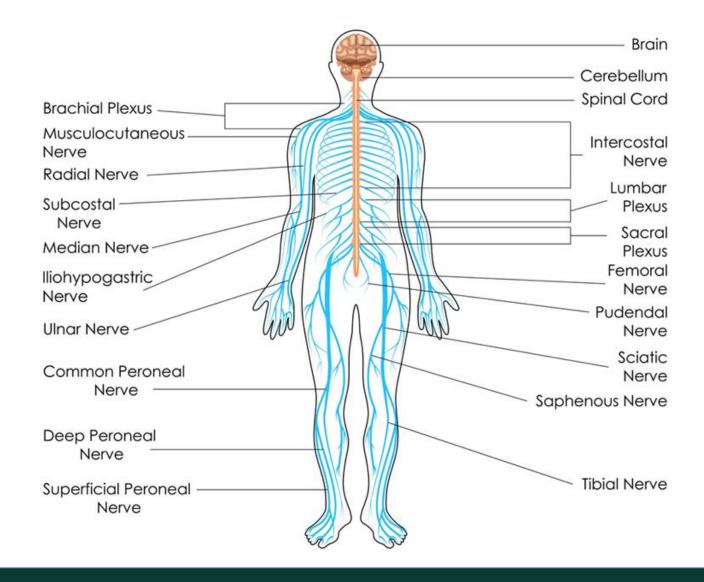

- The nervous system transmits messages to and from the brain and spinal cord to various parts of the body. It includes the central nervous system (CNS) and peripheral nervous system (PNS)
- The central nervous system encompasses the brain and spinal cord; while the peripheral nervous system is comprises of the nerves that carry impulses to and from the central nervous system
- It is important to also take note of our enteric nervous system (ENS) which resides in the lining of our gastrointestinal tract and is referred to as our "second brain"

Nervous System

History of Tilia Tomentosa (Silver Linden)

The Silver Linden is a robust species that originated from southeastern Europe and southwestern Asia

A symbol of "justice", members of the court sat under its branches. Silver Linden also appears in many mythologies and is often associated with religious places of worship

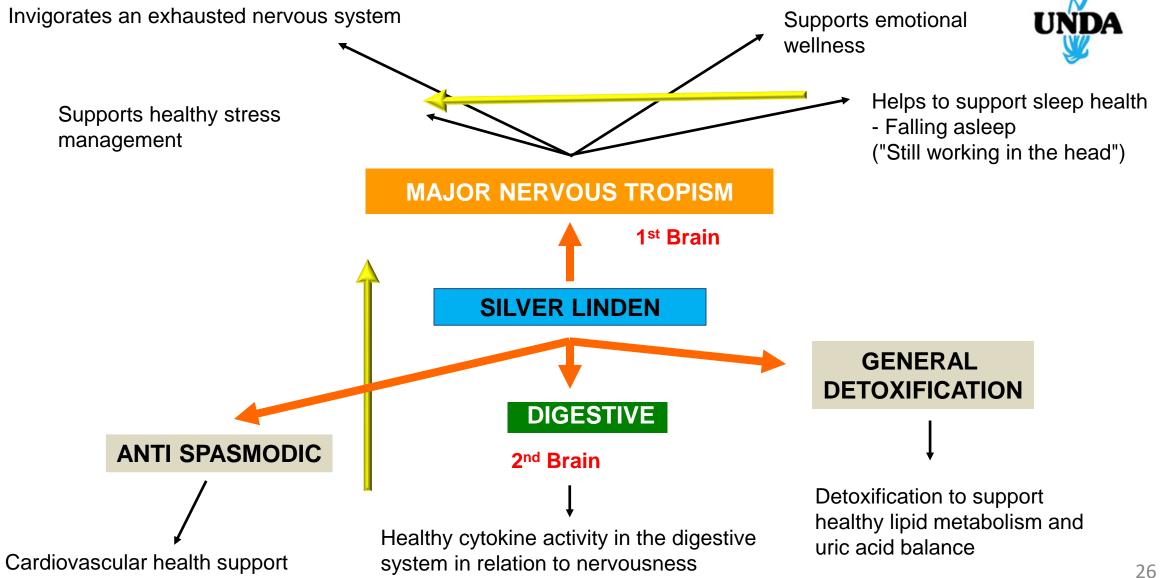

This plant is used to regulate sleep and nervous system health, and its constituents are used during occasional stress and overwork

Additionally, Silver Linden has been used as a tonic and detoxifier. Its use in Phytotherapy also relates to gastrointestinal health

Tilia Tomentosa

Tilia Tomentosa

Organ System Applications:

Cardiovascular, Digestive, Endocrine, General Detoxification, **Nervous**

Applications:

Supports:

- Tonification and general health of the nervous system
- Healthy stress management
- Sleeplessness
- Cardiovascular and digestive health when used in conjunction with specific remedies

EACH DROP (0.025 ml) CONTAINS:

Cardiovascular & Circulatory System

Cardiovascular System Overview

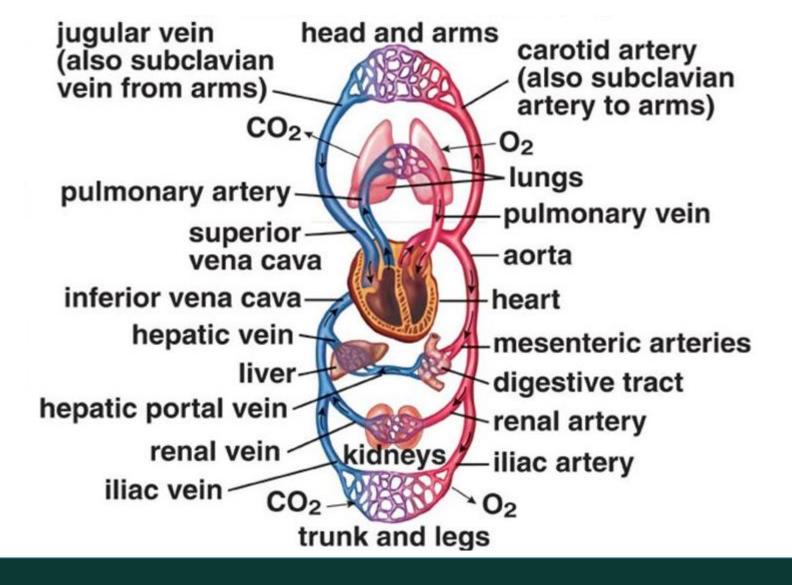

- The cardiovascular system facilitates the circulation of blood and transport of nutrients, oxygen, carbon dioxide and hormones throughout our body
- It is encompasses the cardiovascular and lymphatic systems, comprising primarily of the heart, blood, vessels, arteries, veins, capillaries and the lymphatic system
- A proficient circulatory system is co-dependent on efficient communication between the heart and lungs as well as proper blood circulation

Cardiovascular System

Cerebral Circulation System Overview

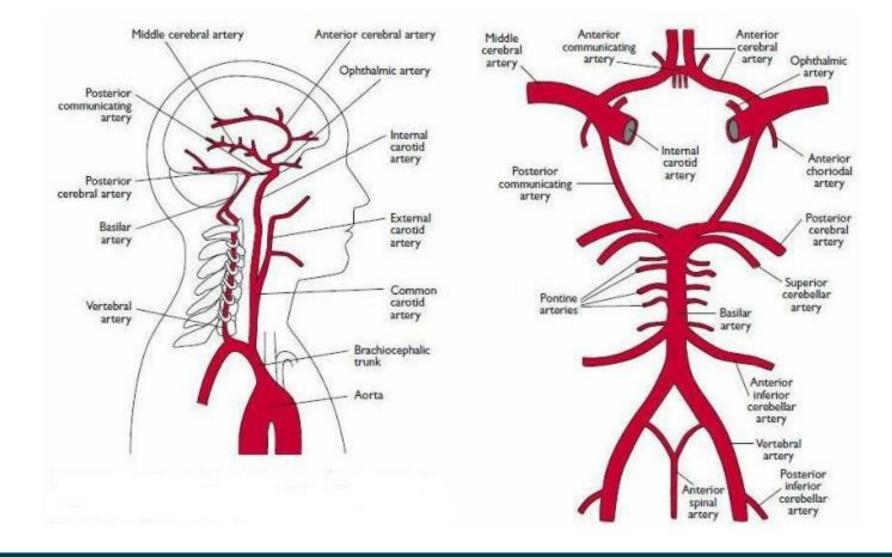

- Cerebral circulation refers to the flow of blood in the brain, that is required for the supply of oxygen, glucose and other nutrients
- Also facilitates the removal of carbon dioxide, lactic acid and other waste materials from the brain
- Proper cerebral circulation is vital in maintaining optimal health and in supporting the cardiovascular and central nervous systems and health in general

Cerebral Circulation

History of Prunus Amygdalus Bud (Almond Bud)

The Almond tree is a heavy hardwood from the Rosacea family

The almond bud is traditionally used in phytotherapy to support the function of the thyroid gland. It also has an impact on the circulatory system, tonifying the cardiovascular system and supporting healthy lipid metabolism

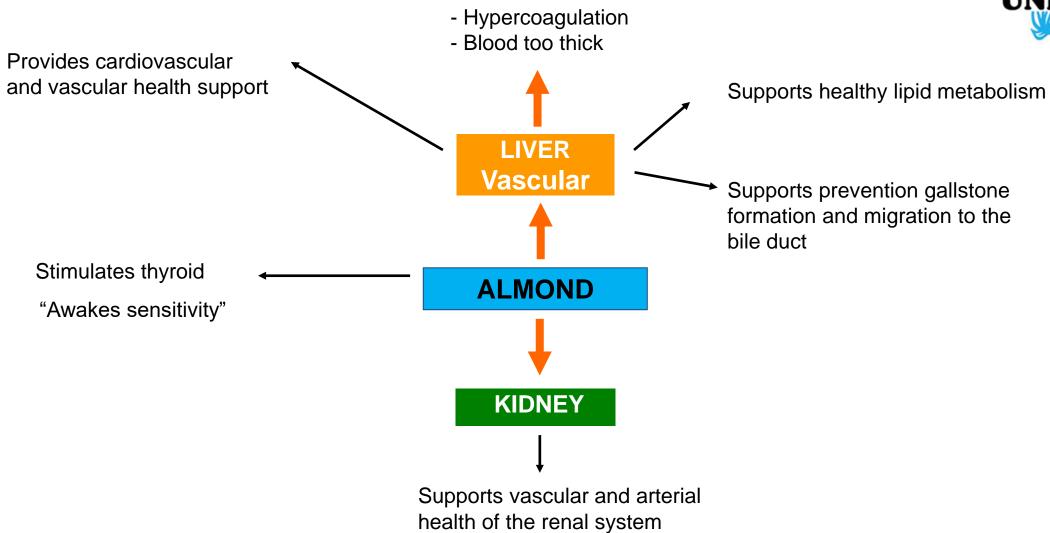

Almond tree buds have anti-sclerotic properties in association with the renal system

Prunus Amygdalus

Prunus Amygdalus Bud

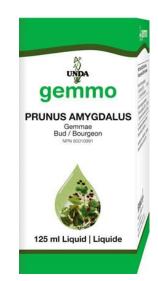

Organ System Applications:

Cardiovascular, Endocrine, Hepatic, Metabolic, Urogenital

Applications:

Supports:

- Thyroid health function
- Healthy lipid metabolism
- Cardiovascular and vascular health
- Preventing formation of gallstones and their migration to the bile duct
- Kidney health

EACH DROP (0.025 ml) CONTAINS:

History of Crataegus Oxyacantha (Hawthorn)

Hawthorn grows everywhere across Europe, except in the regions where olives grow

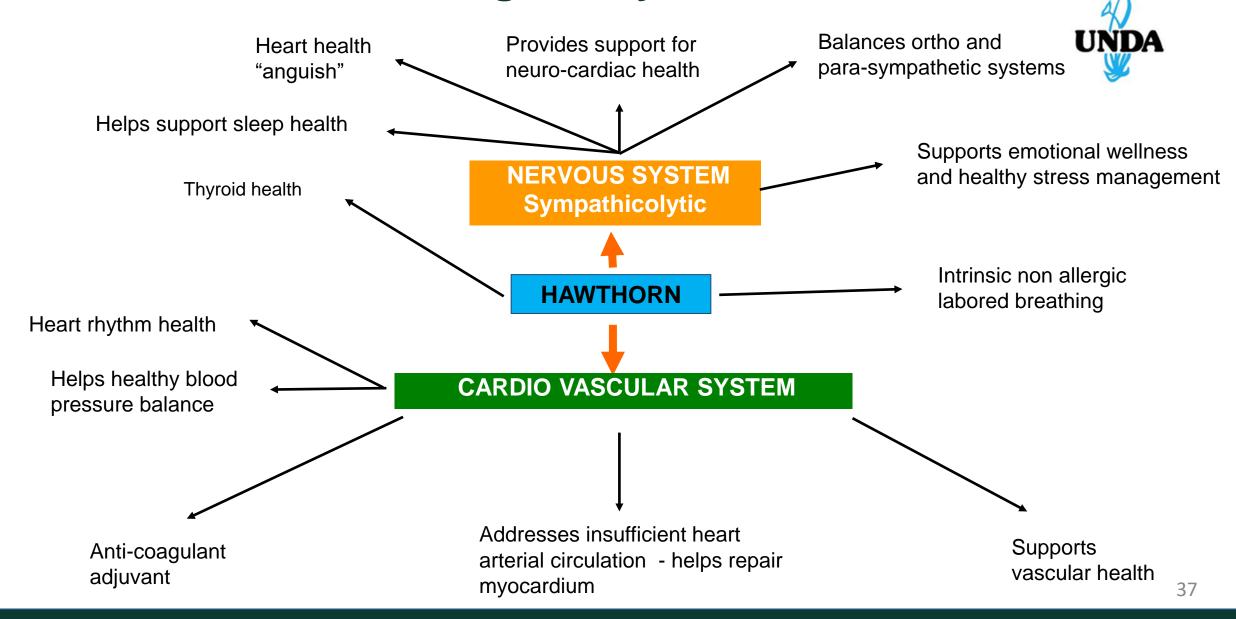

It is a thorny plant from the Rosacea family and became the symbol of longevity due to its traditional use on the heart and brain. Its young shoots contain a high concentration of active compounds, including flavonoids, triterpenoid derivatives and sterols

The main focus of Hawthorn is to regulate the circulatory system as a cardiac tonic. In addition, Hawthorn traditionally has been used for its actions as a sedative in the central nervous system

Crataegus Oxyacantha

Crataegus Oxyacantha

Organ System Applications: Cardiovascular, Endocrine, Nervous

Applications:

- Supports general cardiovascular health:
 - Heart rhythm
 - Heart health and function
 - Vascular health
 - Cardiac symptoms and conditions
 - Healthy blood pressure
- Provides support for neuro-cardiac health

EACH DROP (0.025 ml) CONTAINS:

Hawthorn (*Crataegus oxyacantha*) Young Shoot Extract (1:200) 0.025 ml 0.125 mg Dried Equivalent

History of Syringa Vulgaris (Lilac)

Syringa vulgaris, commonly known as lilac is a large deciduous shrub that can grow as high as 20 – 23 feet high. It bears sweet-smelling flowers and is well-liked as an ornamental plant

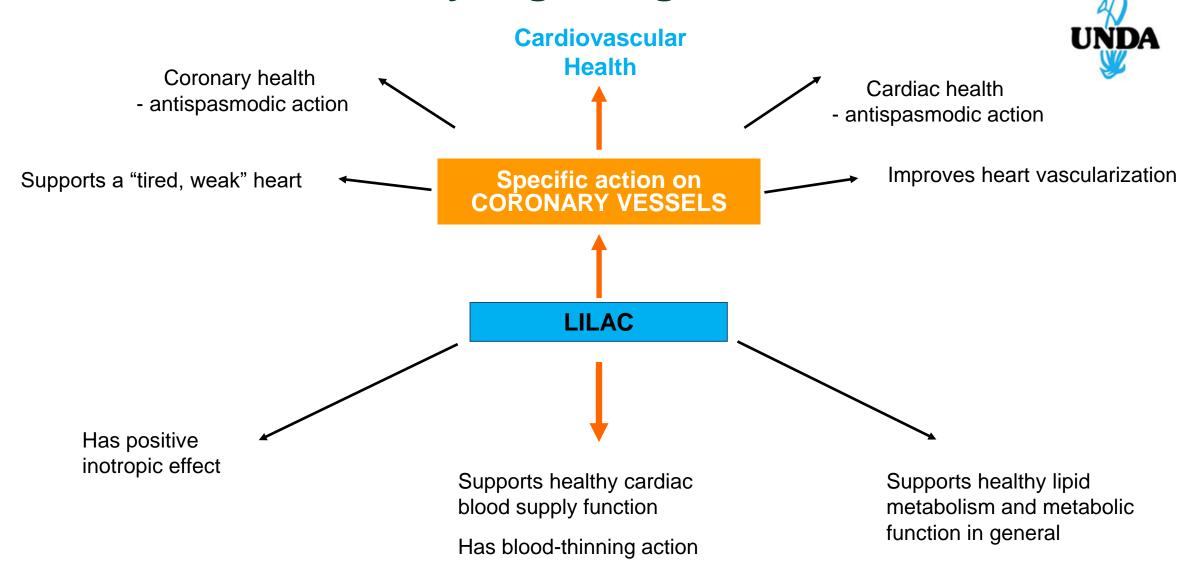

The bud of the lilac is used in phytotherapy primarily to support cardiovascular health with particular association to health of the coronary arteries. It is also known for its specific inotropic effect and antispasmodic action

Syringa Vulgaris

Syringa Vulgarus

Organ System Applications: Cardiovascular, Immune, Metabolic

Applications:

Supports:

- Cardiovascular health and protection
 - Health of coronary arteries
 - Healthy cardiac blood supply function
 - Anti-spasmodic action
 - Positive inotropic effect
 - Blood-thinning action
- Healthy lipid metabolism

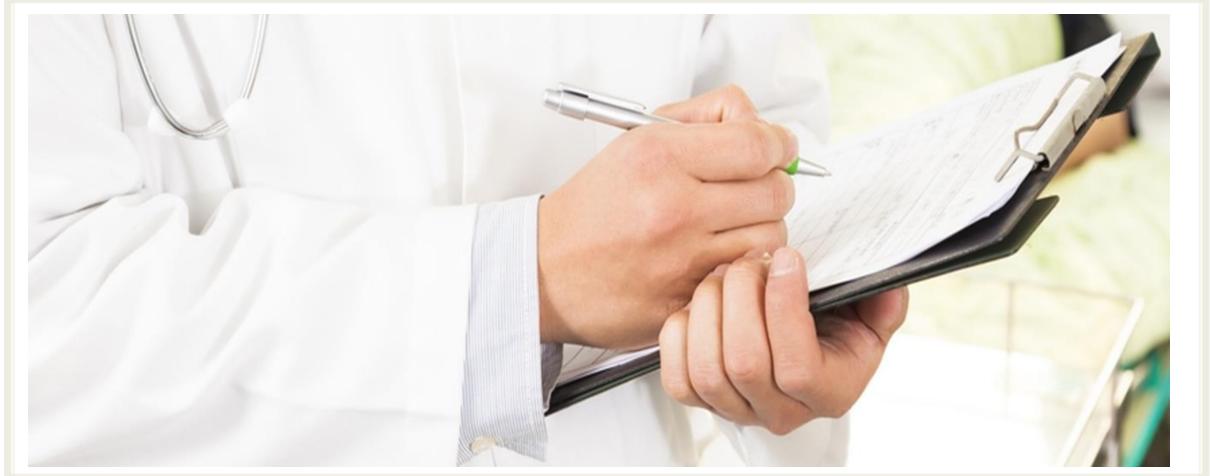

EACH DROP (0.025 ml) CONTAINS:

Clinical Case #1 (continued)

Visit: # 1 N/V review Date: February 9th

Age: 49

Sex: Female

Emotional/Psychological: Concerned about health consequences of Chemo

CC: In tx for Breast Cancer (Chemo (Current)/ Mastectomy (5 Nov. 2009))

Wants to optimize Health/Recovery

Perimenopause

Skin: Dry, past hx of Rashes & Hives, Recent night sweats

Digestive: Food allergies, hemorrhoids, rectal bleeding, indigestion, gas, nausea,

constipation, all worse since chemo

Respiratory: Past hx of hayfever, pneumonia, bronchitis, chronic cough

Visit: # 1 N/V review Date: February 9th

Genital:

Urinary: Increased frequency

Glandular: PMS - Depression, bloating, breast tenderness, swelling of hands,

feet, ankles with period

Musculo-skeletal: Joint pain/stiffness, hip pain

Cardio-vascular:

Nervous system: Loss of memory, poor memory, stress-teenage daughter

Immune: Abnormal Cell development in L Breast

Systemic: Fatigue

Medications: One more round of chemo in 2 wks - Adriamycin/cyclophosphamide

Visit: # 1 N/V review Date: February 9th

Health Hx: All vaccinations

Antibiotics as child & adult

Uses Al antiperspirant

Age 7 tonsillectomy

Age 16 Pluerisy

Age 17 Lumpectomy

Amalgams removed in 20's - used rubber dam

Age 29 - 30 3 miscarriages

Age 32 Pneumonia

Age 49 CA Stage1, Type II, Estro +, No met. to lymph, Lumpectomy L.Br., mastectomy L.Br., chemotherapy

Visit: # 1 N/V review Date: February 9th

Drinks: Tap water, 3-4 cups non-organic black tea/day, 3-5 alcoholic drinks/wk

Diet: Typical Cdn - 1 snack, 3 meals/day - non organic

Fam. Hx: Arthritis, digestive probs, high B/P, CVD, Cancer in Aunts & Uncles

Exercise: Cardio, strength trng, yoga, walking 9-12hrs/wk

Hgt: 5'5"

Wgt: 130lb

B/P: 120/80

P: 68

No blood tests brought in

Visit: # 1 N/V review Date: February 9th

Assessment: Dysbiosis ← Toxicity ← Kidney ← Liver ← Toxicity

Protocol Plan:

R/O Water

Alkaline/Organic Diet

Cocktail of: Juniperus communis 75gtts bid

Sorbus domestic 75gtts bid

Ficus carica 50gtts bid

together in water, *away from food

Visit: # 1 N/V review Date: February 9th

Protocol Plan (cont.):

AM before or after gemmo CuAuAg, dissolve in mouth, *away from food PM before or after gemmo MnCo, Hold in mouth 1 min., *away from food

Orti C - 2 bid with food in AM & Midday

HMF Intensive - 1 bid

RTC - 3 wks

*away from food = 15 minutes or more before or after food & beverages except water

Visit: # 9 F/U review Date: October 24th

Age: 50

Sex: Female

Emotional/Psychological: Concerned about health consequences of Chemo

CC: In tx for Breast Cancer (Chemo Current)/ Mastectomy (5 Nov. 2009))

Wants to optimize Health/Recovery

Perimenopause

Changes noted: Rx O.K., Has been feeling fine till now, All blood tests Normal

New Complaints: Mammogram in Aug. - Lump in R Breast, Emotionally down

Medications: Tomoxafin, Doesn't want to take antidepressant

Visit: # 9 F/U review Date: October 24th

Assessment: Low Vit. D ← Liver ← Emotions

Protocol Plan:

R/O Water

Alkaline/Organic Diet

In Office: Homeopathic Aurum metallicum CMK 1 dose of 3 pills, under the tongue

Maxum Multi Vite - 2 bid with food in AM & Midday

Orti C - 2 bid with food in AM & Midday

Livton - 2 bid

Super Cal Mag - 2 bid

D3-1000 - 1qd

HMF Intensive - 1 bid

RTC - 6 months

Clinical Case Being Continued

Visit: # 10 F/U Date: March 24th

Age: 51

Sex: Female

Emotional/Psychological: Concerned about health consequences of Chemo

CC: In tx for Breast Cancer (Chemo (Current)/ Mastectomy (5 Nov. 2009))

Wants to optimize Health/Recovery

Perimenopause

Changes noted: Rx O.K., Has been feeling fine, All blood tests Normal

New Complaints: Winter-24hr vertigo/flu, Jan.30,2012 Reconstructive surgery, expander placed, Post-op infection, Clindamycin 2wks-didn't work, Septra 4wks-another infection, Clindamycin 10 days-lesion R breast, drain left in, R breast removed - no CA

Medications: Tomoxafin, No antidepressant

Visit: # 10 F/U Date: March 24th

Assessment: Liver Winus Dymbiosis Liver GB Emotions

Protocol Plan:

R/O Water

Alkaline/Organic Diet

In Office: Homeopathic Aurum metallicum CMK 1 dose of 3 pills, under the tongue

Maxum Multi Vite - 2 bid with food in AM & Midday

Orti C - 2 bid with food in AM & Midday

Liv Complex - 2 bid

Super Cal Mag - 2 bid

Organic Flax Oil capsules - 1bid

Silymarin – 1 bid

D3-1000 - 1 qd

HMF Intensive - 2 bid

Visit: # 10 F/U Date: March 24th

Assessment: Liver ← Virus ← Dysbiosis ← Liver/GB ← Emotions

Protocol Plan (cont.):

R/O Water

Alkaline/Organic Diet

Acer campestre - 75gtts tid

Cedrus lebani - 50gtts tid

Juglans regia - 50gtts tid

Ficus carica - 25gtts tid

Together in water for 3 weeks

RTC - 4 - 6 weeks

Visit: Email F/U Date: March 28th

Assessment:

Protocol Plan:

R/O Water

Alkaline/Organic Diet

Added Levofloxacin to Clindamycin

Lab test - Couldn't identify infection - Culture grew nothing!

Should she add anything? NO, continue current suggestions

RTC - As scheduled, contact me in 10 days if no improvement.

Visit: Email F/U Date: April 3rd

Assessment: Lymph congestion

Protocol Plan:

R/O Water

Alkaline/Organic Diet

Not worse, not better

Infectious Disease Specialist - Discontinue current antibiotics - start Cephalexin 29 Mar. 2012

Should she add anything? Yes! Add to the cocktail Sorbus domestica - 100gtts tid

Continue suggestions of 24 Mar. 2012

RTC - As scheduled

Visit: # 11 F/U Date: April 23rd

Age: 51

Sex: Female

Emotional/Psychological: Concerned about health consequences of Chemo

CC: In tx for Breast Cancer (Chemo (Current)/ Mastectomy (5 Nov. 2009))

Wants to optimize Health/Recovery

Perimenopause

Changes noted: Rx O.K., Has been feeling fine, All blood tests Normal

New Complaints: Infection hasn't cleared - Added amoxycillin yesterday, smaller in Am, bigger and redder PM, ran out of Cedrus lebani last week - lesion tripled in size

Medications: Tomoxafin, No antidepressant

Visit: # 11 F/U Date: April 23rd

Assessment: Fungus ← Dysbiosis ← Toxicity ← Liver ← Lymph ← Kidney ← Scar

Protocol Plan:

R/O Water

Alkaline/Organic Diet

Maxum Multi Vite - 2 bid with food in AM & Midday

Orti C - 2 bid with food in AM & Midday

Liv Complex - 2 bid

Super Cal Mag - 2 bid
