## Drug Facts (continued)

### Warnings

Ask a doctor before use if you have

- Persistent or chronic cough such as occurs with smoking, asthma, chronic bronchitis, or emphysema.
- Cough that is accompanied by excessive phlegm (mucus) or fever.

Stop use and ask a doctor if

- Cough persists for more than 1 week, tends to recur, or is accompanied by a fever, rash, or persistent headache. A persistent cough may be a sign of a serious condition.
- Symptoms persist or worsen.

If pregnant or breastfeeding, ask a health professional before use.

Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away.

### Directions

- To be taken ten minutes away from food.
- Invert bottle and shake lightly allowing drops to fall directly under the tongue or into ¼ oz of water.
- Hold contents for about 20 seconds and swallow.
- To promote drop flow, invert bottle and shake before each use. →
