This product reference guide is intended for residents of United States only. The aim of this comprehensive product reference guide is to assist in building more effective and successful patient treatment strategies. The reference guide is to be used as an adjunct to Seroyal Continuing Medical Education and is not intended to be utilized as a diagnostic tool nor replace any other required education. The remedies indicated in this reference guide are potent medicines that can have profound therapeutic effects on patients. As with any intervention, the dosage may need to be adjusted for those with chronic conditions, very sensitive individuals and those taking multiple medications. Practitioners are solely responsible for the care and treatment provided to their own patients. This information is for practitioner use only and is not meant to diagnose, treat, cure, prevent any disease or replace traditional treatment, and has not been evaluated by FDA.

UNDA is a world-renowned homeopathic products company founded in 1949 in Harzé, Belgium. Since their founding, UNDA has developed more than 60,000 different homeopathic compounds, over 2,500 remedies and over 1,500 mother tinctures. Their diverse product line includes single ingredient and combination homeopathic remedies, topical creams, tablets, and natural health products. UNDA products are formulated using a combination of GMO-free plant, mineral, and organic raw materials obtained primarily from local sources.

UNDA employs a number of key quality assurance procedures to ensure the safety and efficacy of each of their homeopathic products. All UNDA products are manufactured in compliance with EU Guidelines for Good Manufacturing Practice (GMP) for Medicinal Products for Human and Veterinary Use. UNDA uses a combination of Hazard Analysis and Critical Control Points (HACCP) processing techniques and extensive safety testing. Products are thoroughly tested to verify that they are free of microbes, mycotoxins, pesticides and heavy metal contaminants. UNDA complies with all appropriate United States Pharmacopeia (USP) regulations for homeopathic products. UNDA also conducts rigorous quality testing to confirm that the appropriate concentrations of homeopathic ingredients are present in their products. Their laboratory analyses include 3D fluorescence spectroscopy, chromatography, and infrared spectrometry, among others.

The UNDA Philosophy

UNDA incorporates the fundamental principles of homeopathic medicine, as founded by Samuel Hahnemann:

1. Do no harm
2. The body is capable of self-regulation
3. Physiology prevails over pathology
4. Restoring the individual's physiology is essential to healing their pathology
5. The four pillars of health must also be taken into account with equal value given to: diet, drainage and elimination, psychological equilibrium and balancing of the hereditary characteristics

Epidemic of Environmentally Mediated Diseases

UNDA products are essential[†] in our modern world that is overflowing with environmental toxins - with no decrease in sight. Increased exposure and accumulation of toxins impairs normal physiological function and contributes of disease symptoms.

Physiology Prevails Over Pathology

The most long-lasting and effective way of restoring health is to remove toxins at both an intracellular and extracellular level. UNDA homeopathic products help to support physiological functions, encouraging the body towards a state of dynamic equilibrium and self-regulation, where true healing can begin. Hence, physiology will prevail over pathology.

UNDA Biotherapeutic Drainage[®] Versus Detoxification

Elimination is a normal physiological function of the body and one of the four pillars of health, including: diet, drainage and elimination, psychological equilibrium and balancing of the hereditary characteristics. Detoxification forces physiological functions, which may lead to a physiological disequilibrium. Biotherapeutic Drainage[®] using UNDA Numbered Compounds works on an extracellular and intracellular level to remove blockages (toxin accumulations, mental or emotional blocks) helping to support physiological functions, encouraging the body towards a state of dynamic equilibrium and self-regulation.[†]

Continuing Medical Education to Enhance Your Practice

Join us to learn from internationally-recognized experts in natural medicine and science. These leaders, practitioners and educators will share extensive clinical experience and provide solidified reference materials to expand your therapeutic capabilities and to:

- **Elevate your practice**
- **Attain better patient results**
- **Increase compliance**
- **Improve patient retention**

Seroyal Continuing Medical Education has received top recommendations from thousands of practitioners who have experienced superior results. Our internationally-recognized experts in natural medicine and science, share extensive clinical experience and provide solidified reference materials to expand your therapeutic capabilities and help support your practice.

Robert Abell ND LAC

Robert Abell ND LAC, received his Doctor of Naturopathic Medicine from the National College of Naturopathic Medicine (NCNM) in 1993 and received his Masters in Chinese Medicine and Acupuncture from the Oregon College of Oriental Medicine in 1994. Dr. Abell currently lectures on various topics throughout North America focusing on Biotherapeutic Drainage® for Seroyal. Dr. Abell uses Biotherapeutic Drainage,® homeopathy, acupuncture and auricular medicine as his primary therapeutic tools.

Mikhael Adams BSc ND

Mikhael Adams BSc ND, received his Doctor of Naturopathy from the National College of Naturopathic Medicine in 1981. He practiced for ten years in Seattle and is now in private practice in Milton, Ontario. Dr. Adams is the president of the International Association of Auricular and Bioenergetics Medicine, past president of the North American Association of Auricular Medicine, and has studied intensively with Dr. Paul Nogier in France. Dr. Adams has been giving workshops in auricular medicine since 1984 and has been lecturing in North America on homeopathy and drainage since 1988.

Bruno Chacornac MD ND

Dr. Bruno Chacornac MD ND received his Doctor of Medicine degree from the Université de Lille, France in 1983, and in 1994 completed his studies in homeopathy and acupuncture attending the Centre Européen d'Etude de l'Homéopathie and Groupe d'Enseignement en Acupuncture Nouvelle et Traditionnelle in France. For the past 16 years, Dr. Chacornac has operated a multi disciplinary clinic in Carvin, France. In addition to his practice, Dr. Chacornac teaches the principles of natural medicine at the Natural and Energetical Medicine Institute (NEMI) founded by Dr. Gérard Guéniot, and several electives at CEA aromatherapy school. Dr. Chacornac lectures extensively across Europe for various phytotherapy and nutritherapy laboratories.

Marija Pevac-Djukic MD (Europe) ND

Dr. Marija Pevac-Djukic MD (Europe) ND, received her Medical Degree in Belgrade, Serbia in 1989 and graduated from the Canadian College of Naturopathic Medicine in Toronto in 2000. With over 21 years of clinical experience in integrative medicine, Dr. Djukic specializes in the foundations of health through Individualized Medicine with emphasis on drainage therapy. Dr. Djukic is well established on the topics of chronic inflammation, gastrointestinal health, immune, neuro-degenerative, endocrine disorders and nutritional biochemistry. Dr. Djukic is currently a Senior Medical Advisor for Seroyal and operates a private clinic in Toronto.

Dickson Thom DDS ND

Dickson Thom DDS ND, is one of the founders and medical directors of the American Center for Biological Medicine and the American Center for Alternative Medicine in Scottsdale, AZ. He is a graduate of the University of Toronto (dentistry) in 1974, the Ontario College of Naturopathic Medicine in Toronto (ND) in 1986 and the National College of Naturopathic Medicine in Portland (ND) in 1989. Dr. Thom brings over 30 years of extensive life experience as a former professor and past Dean at NCNM, he has vast teaching experience in a wide variety of subjects. He has lectured extensively throughout North America and has written and collaborated on many articles dealing with energy medicines and nutrition. He has been in practice for over 35 years with a primary focus on the management of chronic disease, including autoimmune disease, neurological conditions, gastrointestinal health, endocrine disorders and cancer.

Pierre Tondelier MD

Pierre Tondelier MD received his medical degree from the Université de Lille in 1985 and studied at various institutes throughout Europe including the Homeopathic Center in France (1986), GEANT Acupuncture School founded by Dr. Gérard Guéniot (1988), and received his Doctor of Osteopathy from Richard's Osteopathic Institute (1993). Dr. Tondelier has collaborated and directed several teaching programs alongside Dr. Gérard Guéniot in various Homeopathic, Acupuncture and Natural Medicine schools. Dr. Tondelier continues to share his extensive training and clinical experience and lectures for Natural Medicine laboratories and various institutes across Europe and North America. He operates a private clinic in Lille, Northern France.

Ginger Nash ND

Dr. Ginger Nash graduated from The National College of Naturopathic Medicine, Portland Oregon in 1998. Her early career focused on Women's Health; specifically hormone imbalances, a topic on which she researched and lectured extensively throughout the U.S. A growing interest in Individualized Medicine led to extensive studies with European visionary Dr. Gérard Guéniot and incorporating the philosophy of Biotherapeutic Drainage® and homeopathy into private practice. In 2007, continuing the cornerstone of her work in personalized medicine with homeopathy, Dr. Nash immersed herself in the study and science of epigenetics and nutritional biochemistry alongside pioneer thinker and researcher, Dr. Peter D'Adamo, which provided even greater insights and experience for clinical application of nutrition and individuality. She was chief medical officer at Dr. D'Adamo's clinic in Wilton, CT until its closure in 2012. Dr. Nash rejoined the clinic faculty at the University of Bridgeport's College of Naturopathic Medicine in 2011 and operates a highly successful private practice in Woodbridge, Connecticut. She is currently working on a book on breast health and breast cancer, and continues to offer educational programs for health care practitioners throughout the U.S. and Canada.

Inspiration • Education • Collaboration

NEW

BIOTHERAPEUTIC DRAINAGE® PRACTITIONER CERTIFICATION

Elevate Your Practice and Secure Optimal Patient Results!

Seroyal is proud to introduce the Biotherapeutic Drainage Practitioner Certification program.

Certification requires practitioners to complete 8 Biotherapeutic Drainage® courses (6 mandatory and 2 elective) over a 4 year period (see reverse for details). Upon successful completion of a written examination, practitioners will receive the Biotherapeutic Drainage® Certification and be included on the soon to be established Seroyal Biotherapeutic Drainage® Certification Patient Referral listing. Please contact your Seroyal representative for enrollment details.

LEARNING OBJECTIVES

Upon completion of the 119 hours of education practitioners will learn how to:

- Stimulate, activate and regulate drainage via the emunctories, and understand the importance of rebalancing the homeostatic systems
- Implement nature cure and drainage philosophy, and understand their relevance to each individual's immunity and terrain, with attention to miasms
- Access the emunctories through deep intracellular and extracellular elimination, without suppression and in a non-invasive manner
- Understand the role of a variety of drainage therapies including: UNDA Numbered Compounds, Gemmotherapy, Oligo-Elements, Tissue salts, Organotherapy, and GENESTRA BRANDS nutritional products

PRACTITIONERS WILL ALSO HAVE A THOROUGH UNDERSTANDING OF:

- How to build the foundation and framework for treatment regimes addressing the root cause of disease
- The process and evolution of disease in relation to Miasm
- The difference between drainage, detoxification and depuration
- Why physiology prevails over pathology
- In depth patient evaluation/assessment techniques for superior and sustained treatment outcomes
- Practical application of nutritional supplements

As a continuing medical education provider, Seroyal is dedicated to providing healthcare professionals with the tools, knowledge and skill to identify, treat and reverse the negative effects of the modern lifestyle on their patients.

Numbered Compounds

UNDA Numbered Compounds are unique remedies synergistically formulated with plant constituents that target and carry potentized metals to specific organs where enzymatic and metabolic functions are carried out on a cellular level helping to facilitate the drainage of toxins.[†]

UNDA Numbered Compounds are the only complex remedies of their type, formulated with both plants and metals, acting on organotropic and energetic sensitivity levels respectively. Each remedy has its own fingerprint and is combined synergistically based on the integrated principles and theories of anthroposophy, oligotherapy, botany, Traditional Chinese Medicine and homeopathy. UNDA Numbered Compounds are key in Biotherapeutic Drainage,[®] as they work on a physiological and “terrain” level, making them an excellent addition to practitioners’ prevention and treatment armamentarium.

[†]Product “Uses” are based on Homeopathic Materia Medica and have not been evaluated by the Food and Drug Administration. This product has not been clinically tested by Seroyal USA.

Numeric Compounds: Complex Homeopathic Remedies

UNDA Numbered Compounds in Biotherapeutic Drainage™

Utilizing UNDA Numbered Compounds in Biotherapeutic Drainage™ is key as they work at a physiological level. Any trained practitioner can incorporate UNDA Numbered Compounds into their treatment plans, as they enhance the long-term effects of patient treatment. They can also be used in a stand-alone modality. Furthermore, UNDA Numbered Compounds fit well into the philosophy of individualized medicine, allowing for versatility in treatment approaches.

UNDA Numbered Compounds in Traditional Chinese Medicine

Traditional Chinese Medicine (TCM) specifically describes the terrain of the individual, how to build the energy of the body, and how to eliminate toxins. UNDA Numbered Compounds can be incorporated into TCM, as they were created to act on the terrain, and the underlying theory behind UNDA Numbered Compounds corresponds well with the energetic structure of TCM.

Why Use the UNDA Numbered Compounds?

For over 50 years, UNDA Numbered Compounds have forged their place on the world stage of homeopathic complexes for three reasons:

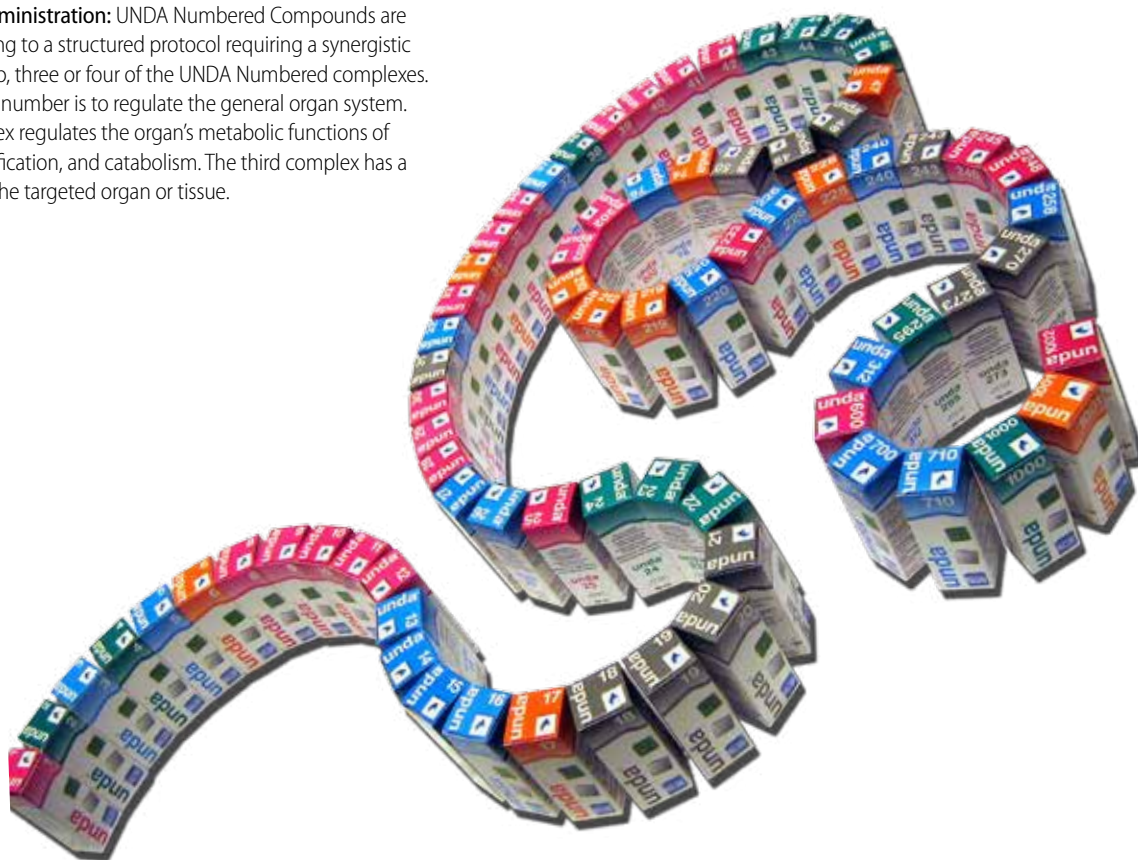

- 1. Their composition:** UNDA Numbered Compounds are complex homeopathic remedies that utilize the organotropic nature of the phytotherapeutic properties of plants to drive pure potentized homeopathic remedies intracellularly where they exert their metabolic functions to remove and drain both endogenous and exogenous toxins from the target organs.
- 2. The method of administration:** UNDA Numbered Compounds are prescribed according to a structured protocol requiring a synergistic combination of two, three or four of the UNDA Numbered complexes. The role of the first number is to regulate the general organ system. The second complex regulates the organ's metabolic functions of elimination, detoxification, and catabolism. The third complex has a specific action on the targeted organ or tissue.

- 3. The UNDA Numbered Compounds** are able to respect the specificity of the various reactional modes of the individual – an elementary principle in homeopathy, through their action on the level of the diathesis. The diatheses express themselves through the manner in which toxins are eliminated and whether or not they respect the principles of natural immunity of the individual.

Understanding the UNDA Numbered Compounds

The concept of the UNDA Numbered Compounds encompasses the basis of natural medicine and the fundamental principles of homeopathic medicine, as founded by Samuel Hahnemann:

- 1. Do no harm**
- 2. The body is capable of self-regulation**
- 3. Physiology prevails over pathology**
- 4. Restoring the individual's physiology is essential to healing their pathology**
- 5. The four pillars of health must also be taken into account with equal value given to: diet, drainage and elimination, psychological equilibrium and balancing of the hereditary characteristics**

The strength of the UNDA Numbered Compounds in context with these principles demonstrates their universality and application to all branches of medicine including phytotherapeutic, naturopathic and homeopathic schools of thought. UNDA Numbered Compounds allow for intervention on all levels of body functions. Restoration of health is assisted by applying one or more of the terrain principles.

When to Use the UNDA Numbered Compounds[†]

1. To encourage Biotherapeutic Drainage™ of a system.

The five stages of drainage:

- a) *Cellular stage*: these toxins are a result of cellular catabolism.
- b) *Hepatic stage*: the hepatic filter is needed to control the toxins eliminated by the cells that are thrown into the circulation.
- c) *Secondary catabolic stage*: all the iatrogenic toxins from catabolic degradation that are interrupted by chemical or dietary toxins require an additional degradation or secondary catabolism. Toxins can only be eliminated by the emunctories after they have been completely catabolized.
- d) *Renal and pulmonary stage*: the catabolized acidic toxins are eliminated by the kidneys or lungs depending on whether they are volatile or not.
- e) *Emunctory stage*: Once the toxins have been degraded enough to be eliminated, they are carried by the remedy to the mucous membranes that are capable of serving as primary emunctories. If this elimination is inadequate, the body may use inflammation to force the toxins to be eliminated by the same emunctories.

2. To balance the homeostatic systems:

The endogenous self-regulation of the body is controlled by six homeostatic systems responsible for the equilibrium of the individual. These include the electrolytic system, the enzymatic and hepatic biochemical systems, the immune system, the hormonal system, the circulatory system, and the nervous system.

3. For an efficient natural immunity:

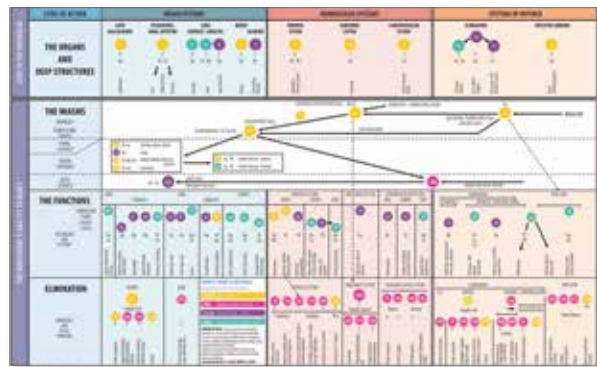

The main action of the UNDA Numbered Compounds is to encourage drainage of endogenous substances that impede biological balance. These actions facilitate the immunological development in the child and strengthen the immune function in the adult.

4. For intervention on functional and lesional pathologies:

By targeting the physiological function of the body, UNDA Numbered Compounds will eliminate the pathology over time[†].

5. Encouraging the action of the similimum:

With the restoration of functionality and visceral physiology, the similimum will have a more efficient, deeper and quicker action on the level of the terrain.

UNDA synoptic charts are provided with every CME course, to assist practitioners in selecting the appropriate combination of UNDA Numbered Compounds for each patient's needs.

Risk Information

If pregnant or breastfeeding, ask a health professional before use. Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away. If symptoms persist or worsen, consult your healthcare practitioner.

See labels for individual product warnings.

[†] Product "Uses" are based on Homeopathic Materia Medica and have not been evaluated by the Food and Drug Administration. This product has not been clinically tested by Seroyal USA.

Plexes

UNDA Plex Remedies include condition-specific homeopathic specialties prepared using low dilutions of plant extracts and metal elements, as well as a unique selection of dietary supplements. Homeopathic plex remedies are recommended for both acute and chronic ailments.† The product range helps to support: the digestive, hormonal, immune, musculoskeletal, nervous, respiratory, skin, oral, and vascular systems. Products come in a variety of formats: creams, liquids, lozenges, powders, gum, paste and dissolvable tablets.

Risk Information

If pregnant or breastfeeding, ask a health professional before use. Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away. If symptoms persist or worsen, consult your healthcare practitioner.

See labels for individual product warnings.

† Product 'Uses' are based on Homeopathic Materia Medica and have not been clinically tested. These 'Uses' have not been evaluated by the Food and Drug Administration.

Carduus Plex

HOMEOPATHIC PREPARATION

Helps promote and maintain overall digestive health and assists with the temporary relief of symptoms associated with indigestion and colic.[†]

FORMULA

Each Drop Contains Equal Parts of:

Sepia Plex

HOMEOPATHIC PREPARATION

For the temporary relief of symptoms associated with menopause.[†]

FORMULA

Each Drop Contains Equal Parts of:

<i>Sepia</i> (<i>Sepia</i>)	3X
<i>Aconitum napellus</i> (Aconite)	6X
<i>Melissa officinalis</i> (Lemon balm)	2X
<i>Cimicifuga racemosa</i> (Black cohosh)	3X
<i>Sanguinaria canadensis</i> (Bloodroot)	3X
<i>Sulfuricum acidum</i> (Sulfuric acid)	6X
<i>Valeriana officinalis</i> (Valerian)	6X
<i>Lachesis mutus</i> (Bushmaster)	8X
<i>Platinum metallicum</i> (Platinum)	8X

Other ingredients: Ethanol (beet), purified water

Recommended Dose

Adults: Take ten drops three times daily. Dosage may be increased up to six times daily according to the severity of symptoms. Or follow the recommendations of your healthcare practitioner. To be taken ten minutes away from food.

Size

1 fl oz (30 ml)

NDC 62106-0117-0

IMMUNE SYSTEM

Echinasyr

HOMEOPATHIC REMEDY

Supports a healthy immune system and helps to maintain natural resistance and defenses, as per Homeopathic Materia Medica.[†]

DRUG FACTS

Active ingredient

<i>Echinacea purpurea</i> (Purple cone-flower) Aerial Parts	MT
---	----

Inactive ingredients: Sorbitol, glycerin, purified water, *Rubus idaeus*, *Ribes nigrum*, grape skin extract, benzoic acid, ammonium glycyrrhizinate, citric acid

Recommended Dose

Adults and Adolescents (12 years and older): Take one to two teaspoons every four to six hours or as recommended by your healthcare practitioner. **Children (1-11 years):** Take ½ teaspoon two times daily or as recommended by your healthcare practitioner.

Size

4.2 fl oz (125 ml)

NDC 62106-1183-2

Muco Coccinum

HOMEOPATHIC PREPARATION

For the temporary relief of symptoms associated with colds and flu.[†]

FORMULA

Each Tablet Contains:

<i>Influenzinum</i> (Influenza vaccine)	200 K
<i>Klebsiella pneumoniae</i> K2	200 K
<i>Branhamella catarrhalis</i>	200 K
<i>Micrococcus tetragenes</i>	200 K

Other ingredients: Xylitol, lactose, carboxymethylcellulose, magnesium stearate

Recommended Dose

Adults: At the first sign of symptoms, take one tablet allowing it to dissolve under the tongue. If symptoms persist, take one tablet two or three times during the day. If symptoms continue to persist after three days, discontinue use and seek advice from a healthcare practitioner.

Children: Divide tablet in half and follow adult directions.

Size

Gemmotherapy Macerates Dietary Supplements

Gemmotherapy uses the extracts of fresh buds and young shoots from developing plants, where the plant's life essence is at its peak in the young growths. Gemmotherapy remedies are prepared in a natural glycerin and organic ethanol medium, which is then filtered and potentized at a 1/10th dilution (1X Hahnemannian). This methodology captures the most complete set of highly-concentrated active constituents necessary for tissue support, growth development and essential drainage properties. Gemmotherapy facilitates the Biotherapeutic Drainage® paradigm and is an excellent adjunct to the UNDA Numbered Compounds.

Gemmotherapy: A Branch of Phytotherapy

Gemmotherapy is a branch of phytotherapy that uses the embryological tissues of plants to support healthy organ function, promote normal tissue regeneration, and encourage toxin elimination via the emunctory organs. It differs from other forms of phytotherapy as it is inspired by the principles of homeopathic drainage.

In the 1950s, renowned Belgian homeopathic doctor Pol Henry conducted preliminary research on the therapeutic properties of plant leaf buds. He continued this research into the 1960s and, in 1970, he published his clinical findings, coining this new therapy, “phytoembryotherapie.”

Dr. Pol was likely inspired by Johann Wolfgang von Goethe’s (1749-1832) book, “The Metamorphosis of Plants.” Phytoembryotherapie was further adapted by Dr. Max Tetau, who renamed this discipline “gemmotherapy,” the name by which it is known today. Other Belgian and French homeopathic doctors and researchers, such as biologist Jean-Claude Leunis, founder of Laboratoire ATEGIS in Belgium, contributed to the further development and research of this unique therapy. The term, “gemmotherapy,” is derived from the Latin word, “gemmae,” which refers to either the leaf bud of a plant, or a jewel.

Macerating plant buds.

The Concept of Gemmotherapy

The concept of gemmotherapy encompasses the basis of natural medicine and the fundamental principles of homeopathic medicine as founded by Samuel Hahnemann:

1. Do no harm
2. The body is capable of self-regulation
3. Physiology prevails over pathology
4. Restoring the individual’s physiology is essential to healing their pathology
5. The four pillars of health must also be taken into account with equal value given to: diet, drainage and elimination, psychological equilibrium and balancing of the hereditary characteristics

Using Gemmotherapy

Gemmotherapy remedies are unique as the extracts of young plant tissues have a high concentration of vitamins, minerals, phytonutrients, and nucleic acids. These active components are distributed unevenly among the various organs of mature plants (flowers, leaves, fruits, and roots). Young plant buds also include higher levels of certain plant growth hormones, such as gibberellins. These growth hormones are thought to stimulate the body’s emunctory organs, promoting toxin elimination.

These fresh, embryonic tissues are harvested in their most active phase of the growth cycle in the spring, in Belgium, to ensure the highest potential concentration of biologically active substances. The plant tissues are then allowed to macerate for 21 days and are potentized and diluted in a 1X Hahnemanian dilution (also known as a D1 dilution) using a mixture of glycerin, alcohol, and purified water.

All gemmotherapy remedies are prepared and delivered at this dilution, with the exception of *Viscum album*, which is prepared at a 1CH dilution. Most herbal tinctures only use alcohol, however using a combination of alcohol and glycerin solvents yields an improved extraction of plant active components, such as alkaloids, essential oils, and flavonoid antioxidants.

How Gemmotherapy Works

The main actions of gemmotherapy are to:

1. Encourage toxin elimination via the emunctory organs
2. Support healthy organ function
3. Promote normal tissue regeneration
4. Favour healthy growth and development

Gemmotherapy aids the body in eliminating both endogenous and exogenous toxins by directing them towards the emunctories, and by opening up the emunctory organs' routes of excretion. When toxins are present, they disrupt the biological balance in the body, impairing immune system function. Gemmotherapy helps to support normal immune function in adults by aiding in toxin elimination. They can be used alone, or in combination with other naturopathic therapies to enhance their efficacy.

Gemmotherapy is able to respect the specificity of the reactional modes of the individual, through their action on the diathesis. The diathesis expresses itself through the manner in which an individual eliminates their toxins and whether or not the principles of natural immunity (non-specific) of the individual are followed.

Crocus.

Abies Alba

DIETARY SUPPLEMENT

SUPPLEMENT FACTS

Serving Size 50 Drops (1.25 ml)/ Servings per Container 100

Each Serving Contains

Silver Fir (<i>Abies alba</i>) Bud Extract (1:200)	1.25 ml *
6.25 mg Dried Equivalent

DIETARY SUPPLEMENT

SUPPLEMENT FACTS

Serving Size 50 Drops (1.25 ml)/ Servings per Container 100

Each Serving Contains

Corn (<i>Zea mays</i>) Rootlet Extract (1:200)	1.25 ml *
6.25 mg Dried Equivalent	

* Daily Value not established
Other ingredients: Glycerin, ethanol (beet), purified water

Recommended Dose

Adults and Children (over 12 years): Take 50 drops (1.25 ml) three times daily in a small amount of water, or as recommended by your healthcare practitioner.

Size

4.2 fl oz (125 ml)

Gammadyn Oligo-Elements Dietary Supplements

Oligotherapy is a method of furnishing the body with the essential trace minerals that are indispensable for cellular enzymatic functions.* This functional therapeutic modality requires the use of trace elements in precisely measured, small doses in a highly bioavailable form. These trace elements are co-factors in a multitude of biochemical reactions where they accelerate the speed of these reactions without ever modifying the important equilibrium that exists and that must reign within the body to maintain optimum health.* UNDA Gammadyn Oligo-Elements are convenient, effective, highly stable, highly bioavailable and great-tasting.

*These statements have not been evaluated by the Food and Drug Administration. These products are not intended to diagnose, treat, cure or prevent any disease.

Gammadyn Oligo-Elements: High Bioavailability Trace Minerals

Over a century ago, French chemist and biologist Gabriel Bertrand discovered that trace minerals are naturally present within the body. These minerals play an extremely important biological role in supporting cellular metabolism in homeostatic regulation processes.* At the cellular level, trace minerals are used at minute intracellular dilutions, released in ionized form for immediate transportation and utilized throughout the body. Trace minerals function as enzymatic co-factors: enzymes allow the body to perform metabolic functions at rates in excess of a million times greater than would be possible without them. Formed from protein molecules, most enzymes depend on specific, low-concentration trace minerals to provide metal ions as either stabilizers or activators, as well as help determine the enzyme's specificity for a given substrate. Trace minerals become the co-factors to help support normal enzymatic function.*

What are Oligo Elements?

Oligo elements, or trace minerals, are essential minerals such as, copper, iodine, and selenium that are generally less abundant in the human body than mineral salts (e.g. calcium and sodium). Although present at low concentrations, oligo elements play a fundamental role in maintaining general health.* The oligo elements used in oligo-element supplementation are provided in a highly bioavailable form, administered in small doses and at low concentrations.

Gammadyn® products are a source of oligo elements such as iodine, selenium and copper.

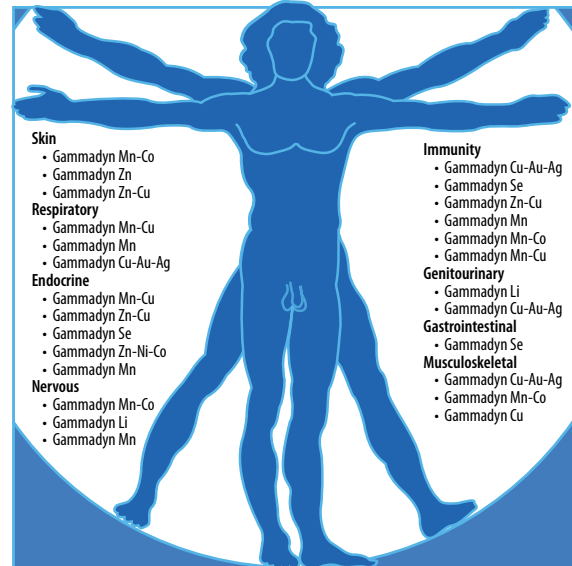

Selenium is a key component in the glutathione peroxidase (GPx) family of antioxidant enzymes, helps to scavenge harmful free radicals, and supports a healthy immune system*

Iodine is essential in the production of thyroid hormones triiodothyronine (T3) and thyroxine (T4), which help support cellular metabolism*

Copper is a key component of the antioxidant enzyme superoxide dismutase 1 (SOD1), assists in the formation of red blood cells, and also supports connective tissue repair*

Structural components: Minerals possess either a quantitative or qualitative effect, depending on whether they work at the macro (quantitative) level of structural formation and functional processes, or at the micro (qualitative) level of cellular enzyme activation. Trace minerals work at a micro level (qualitative in action) but may have additional roles and work at a macro (or quantitative) level.*

Gammadyn System Usage

Elemental Overload

Elemental overload is caused by accidental intoxication from adulterated foods and environmental pollutants, such as pesticides, heavy metals, or element disequilibrium. Toxic metals directly interfere with specific enzyme functions. Zinc-dependent enzymes are a prime example. In the presence of even low levels of lead, a close neighbor of zinc on the periodic table, these enzymes can bind to lead and become inactivated. Mercury and cadmium are also known toxic enzyme inhibitors. The toxic effect of these heavy metals stems from their ability to distort the substrate binding site of the enzyme, rendering it useless.

An imbalance in the intracellular oligo element equilibrium can cause a build-up of one element at the expense of the other, thus leading to a qualitative insufficiency. This disequilibrium toxicity will respond to oligotherapy. For example, alkaline phosphatase is activated by zinc, but the complex is highly changeable. Other divalent cations, such as magnesium or cobalt, if present in excessive levels, can bind to the enzyme and deactivate it. Large doses of zinc will only contribute to disequilibrium and are unable to reactivate the enzymes.

As therapeutic enzymatic regulators, oligo elements aid in the treatment of biochemical dysfunctions without disturbing the existing equilibrium.

Trace Element Deficiency

Quantitative mineral deficiencies are the result of either a decrease of absorption or increased excretion. Absorption can be affected by the nutritional quality of the food source: deficient foods, e.g. from mineral depleted soils, may provide insufficient essential trace minerals. Absorption can also be affected by decreased bioavailability of foods due to chelation with inassimilable compounds, such as phytates, phosphates. There is a close relationship between element equilibrium and metabolism. For example, zinc plays an important role in the synthesis of amino acids as it's a cofactor for glutamate dehydrogenase, magnesium is necessary for digestion as it's a primary cofactor for protease enzymes, copper helps prevent free radical pathology as it's a component of superoxide dismutase enzymes, and manganese is essential for DNA synthesis and repair as it's a component of DNA polymerase enzymes. The proper function of each of these processes is dependent on a highly integrated and balanced relationship of one mineral to another. As indicated above, a deficiency or imbalance in any one mineral can be at the expense of another.

Used as supplementation, oligo elements are suited to treating mineral deficiencies caused by: nutritional imbalances, increased requirements; or insufficient absorption.*

Benefits of UNDA Gammadyn® in Oligotherapy

Convenient: small travel-size ampoules are cleaner and easier to use. Helps retain maximum potency and prevent contamination

Quick Absorption: liquid formulations keep active ingredients stable and highly bioavailable.

Patient Compliant: superior flavor, with no aftertaste

Manufacturing excellence and stringent testing make UNDA Gammadyn® the market leader in oligotherapy products.

Risk Information

If pregnant or breastfeeding, ask a health professional before use. Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away. If symptoms persist or worsen, consult your healthcare practitioner.

See labels for individual product warnings.

Gammadyn Cu Copper

OLIGO-ELEMENT SUPPLEMENT

SUPPLEMENT FACTS

Serving Size 1 Ampoule (0.07 fl oz)/ Servings per Container 30

Each Ampoule Contains	%DV*	
Copper (copper gluconate)	0.725 mg	36%

* Daily Value (DV)
Other ingredients: Purified water, glucose

Recommended Dose

Adults (19 years and older): Take one ampoule every three hours up to 8 times per day for 3-5 days, or as recommended by your healthcare practitioner. **Children (12-18 years):** Take one ampoule one to two times daily, or as recommended by your healthcare practitioner. **Children (1-11 years):** Take ½ ampoule one to two times daily, or as recommended by your healthcare practitioner. Squeeze contents directly into mouth. Use for one to two months, or as recommended by your healthcare practitioner.

Size

30 Ampoules

Gammadyn Cu-Au-Ag Copper-Gold-Silver

Schüessler Salts

Schüessler Tissue Salts act on the cellular level to balance and restore cell function. UNDA Tissue Salts are prepared using methods based on Dr. W. H. Schüessler Biochemical System of Medicine in accordance with the German Homeopathic Pharmacopoeia [HAB].

Schüessler Salts: The Tissue Salts Needed for Optimum Health

The Function of Tissue Salts

Tissue salts (mineral salts) are composed of minerals that play a critical role in regulating cellular metabolism. While not directly involved in cellular energy production, tissue salts help to regulate the following cell functions:

Oxidation: The presence of mineral salts helps to support nutrient oxidation and absorption.

Structural development: mineral salts help to promote normal cell function.

The History of Tissue Salts

Although tissue salts were first used in homeopathic preparations by Samuel Hahnemann, they are actually part of the Biochemic System of Medicine. Originally proposed by Rudolf Virchow in 1858, the Biochemic System states that the body is merely a collection of cells, and that medicinal treatment should be directed towards the individual cell. In this respect, tissue salts were mineral complexes formulated to rectify cellular mineral imbalances.

Dr. Schüessler determined that tissue salt imbalances change the state of immunity and resistance to microbes.

The idea that health could be disturbed by an imbalance in the mineral salts, and corrected by restoring that balance, evolved gradually over the 19th century along with the development of chemistry and cellular biology. In 1873, German homeopath Dr. Schüessler combined this intuitive belief in the body's innate ability to heal itself with the observation that diseases were associated with mineral imbalances. Prior to his work, little had been done with the emerging

knowledge of the chemical composition of the human body. Schüessler spent considerable time studying the effects of tissue salt imbalances and improper metabolism. His findings determined that if this balance is upset, there can be a change in the state of immunity and resistance to microbes. He also studied and catalogued various symptoms that may result from a cell salt deficiency.

Based on analysis of tissue and blood samples, Schüessler defined ten tissue salts that, in proper balance, he considered vital to optimum health: calcium, chlorine, fluorine, iron, magnesium, phosphorus, potassium, silica, sodium, and sulphur.

Modern Lifestyles Need Tissue Salts

Modern lifestyles drain even the most health-conscious person. Levels of mineral salts can be easily depleted through stress, anxiety, poor nutrition, industrially tainted foodstuffs, electro-pollution, environmental toxins, exposure to heavy metals and contaminated drinking water.

Schüessler Salts Defined

Dr. Schüessler believed that balance could be restored by ingesting tissue salts in a bioavailable form. He believed that human cells do not "replace" minerals, but that cells are "activated" by the presence of the homeopathically potentized tissue salts and thus able to restore balance of the essential components. Schüessler formulated 12 highly bioavailable ingestible tissue salt complexes in a 6X and 12X potency.

Cellular penetration: The tissue salt remedies provide support to individual body systems and to each other, to promote maintenance of general health. These remedies may be used in combination with other homeopathic preparations.

Quick absorption: TTablet formulations keep active ingredients stable and highly bioavailable. Administered for sublingual absorption, where sublingual mucosa, rich in surface capillaries, allow for the unimpaird absorption into the circulatory system and transport directly to the cell site in their intended concentrations.

Patient compliance: Excellent flavour, with no aftertaste.

Calcarea Carbonica 6X

HOMEOPATHIC REMEDY

FORMULA

Each Tablet Contains:

<i>Calcarea carbonica</i> (Impure calcium carbonate from oyster shell)	6X
--	----

Inactive Ingredients: Lactose monohydrate, xylitol, croscarmellose sodium, magnesium stearate

Recommended Dose

Adults and Children (12 years and older): Take one to four tablets, one to four times daily, or as recommended by your healthcare practitioner. **Children (6-11 years):** Take one to three tablets, one to four times daily, or as recommended by your healthcare practitioner. **Children (1-5 years):** Take ½ to three tablets, one to three times daily, or as recommended by your healthcare practitioner. **Infants (0-11 months):** Take ½ to three tablets, one to two times daily, or as recommended by your healthcare practitioner. For children 0-2 years old, dissolve tablet in a small amount of water. **Acute Dosing:** Follow the above age recommended tablet amounts and take every 15 to 60 minutes (up to 12 times per day) or until symptoms improve, then resume general dosing. Tip bottle slightly allowing for tablets to fall into the cap. Use cap to drop tablets into mouth and allow them to dissolve under the tongue.

Mélange Combination

HOMEOPATHIC PREPARATION

FORMULA

Each Tablet Contains Equal Parts of:

<i>Calcarea fluorica</i> (Calcium fluoride)	12X
<i>Calcarea sulphurica</i> (Calcium sulfate)	6X
<i>Calcium phosphoricum</i> (Calcium hydrogen phosphate dihydrate)	6X
<i>Ferrum phosphoricum</i> (Hydrated iron [III] phosphate)	12X
<i>Kali muriaticum</i> (Potassium chloride)	6X
<i>Kalium phosphoricum</i> (Potassium dihydrogen phosphate)	6X
<i>Kali sulphuricum</i> (Potassium sulfate)	6X
<i>Magnesia phosphorica</i> (Magnesium hydrogen phosphate trihydrate)	6X
<i>Natrum muriaticum</i> (Sodium chloride)	6X
<i>Natrum phosphoricum</i> (Sodium phosphate)	6X
<i>Natrum sulphuricum</i> (Anhydrous sodium sulfate)	6X
<i>Silicea</i> (Silicon dioxide)	12X

Inactive Ingredients: Lactose monohydrate, xylitol, croscarmellose sodium, magnesium stearate

Recommended Dose

Adults and Children (12 years and older): Take one to four tablets, one to four times daily, or as recommended by your healthcare practitioner. **Children (6-11 years):** Take one to three tablets, one to four times daily, or as recommended by your healthcare practitioner. **Children (1-5 years):** Take ½ to three tablets, one to three times daily, or as recommended by your healthcare practitioner. **Infants (0-11 months):** Take ½ to three tablets, one to two times daily, or as recommended by your healthcare practitioner. For children 0-2 years old, dissolve tablet in a small amount of water. **Acute Dosing:** Follow the above age recommended tablet amounts and take every 15 to 60 minutes (up to 12 times per day) or until symptoms improve, then resume general dosing. Tip bottle slightly allowing for tablets to fall into the cap. Use cap to drop tablets into mouth and allow them to dissolve under the tongue.

Risk Information
 If pregnant or breastfeeding, ask a health professional before use. Keep out of reach of children. In case of overdose, get medical help or contact a Poison Control Center right away. If symptoms persist or worsen, consult your healthcare practitioner.
 See labels for individual product warnings.

Clinical Aids

First Aid Kits

UNDA First Aid Kits are available for both family and professional use. They include a selection of either 29 or 58 UNDA Single Remedies, plus 2 UNDA Plexes topical creams.

First Aid Case

UNDA's First Aid Case includes a selection of 64 tubes of homeopathic remedies.

Professional Testing Kits

UNDA Professional Testing Kits are intended for use in Applied Kinesiology and other types of energetic testing. Testing Kits are available for UNDA Gammadyns and Schüssler Salts, Gemmotherapy, Numbered Compounds and Plexes product lines.

Homeopathic Cabinet

UNDA's Stackable Homeopathic Cabinet offers a selection of 84 tubes of homeopathic remedies.

Meeting Your Needs

Every Product, Every Order

Exceptional and personalized services are available through industry-experienced sales and customer service staff, trained comprehensively in product ingredients, indications and clinical considerations. Seroyal's in-house medical advisory team is always available for unbiased peer-to-peer discussions on treatment options and to answer questions relating to product applicability.

ORDERING

Customer Service is pleased to take orders during the following hours:

9:00 AM to 7:30 PM EST, Monday to Thursday

9:00 AM to 7:00 PM EST, Friday

Orders may also be placed at anytime by telephone, fax, e-mail or online:

Tel: (888) 737-6925

Fax: (877) 737-6925

E-mail sales@seroyal.com

www.seroyal.com

All orders are shipped the same day when placed before 2:30 PM your local time (except for Puerto Rico, Hawaii and Alaska).

For delivery, timing, handling fees and terms, please reference our price list.

Minimum Advertised Price (MAP) Policy

Seroyal's Minimum Advertised Price Policy (the "MAP Policy") applies to all customers including those that own, operate or manage websites, online clinics and pharmacies. The MAP policy applies to all printed and electronic advertisements of Seroyal products including but not limited to catalogs, brochures, websites, email solicitations, special offers, newsletters and electronic coupons or coupon codes. HCP customers agree to assume all liability and responsibility for the resale of products through the internet.

Through the purchase of Seroyal products, customers agree not to advertise any product below Seroyal's Manufacturer Suggested Retail Price (MSRP) for each respective product as listed on the Seroyal professional product list in effect at the time of the advertising. HCP's are free to set the actual resale price as they deem appropriate; however, all products must check-out at or above Seroyal's MSRP (typically the page at which the end user finally purchases the product). Access to an actual resale price that is lower than Seroyal's MSRP via the internet may only be granted through restricted web pages protected by a unique code.

Please refer to the full text of the MAP Policy available on Seroyal's website at www.seroyal.com.

Seroyal Corporate Internet Reseller Policy

The Seroyal Corporate Internet Reseller Policy applies to all of our valued customers who currently sell or intend to sell online, or own, operate or manage online websites with e-commerce capabilities. We believe that this is an important component of our strategy to ensure our products are supported with appropriate MAP pricing, marketing presentation, expert medical support, education, and strong customer service to support our professional markets. This policy is designed to protect you, our valued customer, and continue to support the integrity and heritage of our Seroyal product line that you have come to rely upon for innovation and quality. There will be a zero tolerance policy for non-compliance and Seroyal reserves the right to terminate sales to non-compliant individuals and businesses. For complete policy details please visit our website at www.seroyal.com.
